## To the 70th Anniversary of M. D. Stadnichuk

Editorial Board of the Zhurnal Obshchei Khimii, authors, and readers, the editorial staff cordially congratulate Professor Miroslav Dmitrievich Stadnichuk with 70th birthday. For long years Miroslav Dmitrievich is a permanent Deputy Editor-in-Chief of the Journal, and for some time fulfilled the duties of the Editor-in-Chief. The authors contributing to the Journal from Russia and from abroad are well acquainted with his Editor's handwriting, his activity dedicated to the progress of the chemical science and to the refinement of scientific publications. His work, high principles in selecting material for publication, support in

publishing outstanding results ensure the development of the Journal and fortify its status.

Miroslav Dmitrievich is Professor of the Saint-Petersburg State Institute of Technology (Technical University), and for a number of years he is the Head of the Chair of Organic Chemistry in this Institute. He is well known as a teacher who contributed a lot into teaching engineers and researchers for Russian industry and science. We wish Miroslav Dmitrievich good health and new achievements destined for the development of chemical science and education in our country.
