INTRODUCTORY REMARKS

The Fifth Symposium on Separation Science and Technology for Energy Applications was held in Knoxville, Tennessee, October 26-29, 1987. This was the fifth of a series of symposia, held biannually, to bring together practitioners of this diverse discipline in order to exchange knowledge both within and among their specialities on topics related to energy production, utilization, and conservation.

The symposium was organized and conducted under the sponsorship of the U.S. Department of Energy, the American Chemical Society, the American Institute of Chemical Engineers, and Oak Ridge National Laboratory by the following:

Organizing Committee

Jack S. Watson, General Chairman
Oak Ridge National Laboratory

Jimmy T. Bell, Technical Chairman
Oak Ridge National Laboratory

Roland F. Hirsch
U.S. Department of Energy

Program Committee

Pier R. Danesi
International Atomic Energy Agency
Vienna, Austria

James R. Fair
University of Texas at Austin

E. Philip Horwitz
Argonne National Laboratory

Michael E. Paulaitis
University of Delaware

Henry Shaw
New Jersey Institute of Technology

Session Chairmen

Membranes

Pier R. Danesi, International Atomic Energy Agency,
Vienna, Austria

Posters

Charles H. Byers, Oak Ridge National Laboratory
L. Mac Toth, Oak Ridge National Laboratory

Solvent Extraction

E. Philip Horwitz, Argonne National Laboratory
Jan D. Miller, University of Utah

**Removal of Dilute Components from Fossil Fuels
and Other Substances**

Henry Shaw, New Jersey Institute of Technology

**Principles and Applications of Supercritical
Fluid Extraction**

Michael E. Paulaitis, University of Delaware

Chromatography, Adsorption, and Ion Exchange

James R. Fair, University of Texas at Austin

We are particularly pleased to acknowledge the editorial assistance provided by Luci Bell and Donna Reichle, symposium arrangements which were capably handled by Norma Cardwell, and the secretarial support of Brenda Breeden, Bettye Phifer, and Janice Shannon, both in conduct of the symposium and in the preparation of these issues

of the Journal. The editors, Watson and Bell, are especially grateful to the people who provided peer review of the manuscripts.

The Sixth Symposium on Separation Science and Technology for Energy Applications will continue this biannual event and will be held at the Knoxville Hilton, Knoxville, Tennessee, U.S.A, on October 22-27, 1989.
