Biography

Miguel de la Guardia
Department of Analytical Chemistry, University of Valencia
Valencia, Spain

Miguel de la Guardia is Professor of Analytical Chemistry at Valencia University (Spain). He is married to Amparo Segarra and he has two sons and two daughters. Alberto, who is a chemist, is 25 years old; Julia, an economist, is 24 years old; Miguel is 2 years old; and Irene is 4 months old. He received his M.Sc. from Valencia in 1976 and his Ph.D. degree from the same university in 1979 with a thesis on "The Use of emulsions in Atomic Spectroscopy." He was promoted to associate professor in 1985 and to full professor in 1991 at his university. During this time, he has developed a powerful research team with a staff including Prof. Agustin Pastor (environmental and chromatographic studies), Prof. M. Luisa Cervera (atomic spectrometry), Prof. Angel Morales (automation and microwave assisted methodologies), and Prof. Salvador Garrigues (vibrational spectrometry) and has enjoyed many postdoctoral colleagues, friends, and students who have cooperated in the publication of more than 350 research papers in international journals. His current research is focused on the automation of analytical methods through multicommutation, sample preparation procedures for elemental analysis and speciation, chromatographic and spectrometric determinations, and quantitative

vibrational spectrometry in the FTIR, NIR, and Raman fields. He has supervised 25 Ph.D. theses and participated in many analytical symposia through the world, being an invited speaker in France, Germany, Italy, Brazil, Venezuela, Morocco, Turkey, China, Norway, the United Kingdom, the United States, Colombia, Egypt, Uruguay, Argentina, Switzerland, and Belgium. He is a member of the editorial board of *Spectroscopy Letters* (USA), *Ciencia* (Venezuela), *Journal of the Brazilian Chemical Society* (Brazil), and he was member of the advisory board of *Analytica Chemica Acta* from 1995 to 2000. He is currently a consultant to the governments of Portugal, Italy, Argentina, and China for the evaluation of research proposals and grants, and he is routinely requested by several journals to act as a reviewer.
