W. Bensch, A. Mosandl and K. Fischer, Stereoisomeric flavour compounds–LXIII. 4-Hydroxypentan-2-one enantiomers – structure and properties, *Tetrahedron: Asymmetry*, **1993**, *4*, 655.

The absolute configurations of (*R*)-(–)- and (*S*)-(+)-hydroxypentanone-2-one have been previously established by; A. Tai, K. Ito and T. Harada, *Bull. Chem. Soc. Jpn*, **1981**, *54*, 223. We thank Prof. Tai for bringing his work to our attention.
