

# CORRIGENDUM

T. Sugimura, N. Nishiyama, A. Tai, and T. Hakushi, Diastereoface Differentiating Peracid Oxidation of the Enol Ether Derived from Cyclohexanone and 2,4-Pentanediol: Preparation of Optically Pure 2-Hydroxycyclohexanone, *Tetrahedron: Asymmetry*, **1993**, *4* (1), 43-44.

The last line of the P. 43 should be corrected from "one diastereomer predominantly even at 0 °C." to "product of 89 % d.e. at 0 °C".

The authors regret our mistake in the manuscript.
