TETRAHEDRON:
ASYMMETRY

Corrigendum

Corrigendum to “A new, scalable preparation of a glucopyranosylidene-spiro-thiohydantoin: one of the best inhibitors of glycogen phosphorylases” [Tetrahedron: *Asymmetry* 11 (2000) 1719][†]

László Somsák* and Veronika Nagy

Department of Organic Chemistry, University of Debrecen, POB 20, H-4010, Debrecen, Hungary

In Section 3.3. 2,3,4,6-Tetra-*O*-benzoyl-1-bromo-1-deoxy- β -D-glucopyranosyl cyanide **4**, in the ¹³C NMR data 93.43 (C-1) should be replaced by 81.26 (C-1).
