Erratum

Erratum to “Hydroxyamide-catalyzed enantioselective addition of diethylzinc to benzaldehyde in the absence of titanium”

[*Tetrahedron: Asymmetry* 19 (2008) 646]

Tomás de las Casas Engel, Beatriz Lora Maroto, Antonio García Martínez, Santiago de la Moya Cerero *

Departamento de Química Orgánica I, Facultad de Ciencias Químicas, Universidad Complutense de Madrid, Ciudad Universitaria s/n, 28040 Madrid, Spain

The Publisher regrets an error in the above paper. In the first paragraph of the Introduction ‘hydroxyamide-catalyzed’ should read simply ‘catalyzed’. The corrected first line is given below:

The catalyzed enantioselective addition of organozinc reagents to aldehydes is one of the most important synthetic methods for the preparation of enantioenriched secondary alcohols.
