The authors regret that on page 271 the second author name was spelt incorrectly and should read as “Shi Li Wang”.

The value for  $[\alpha]_{\text{D}}^{20}$  of compound **6** on page 271 is also incorrect and should read as follows:  
 $[\alpha]_{\text{D}}^{20} -83.9$  (*c* 1.1 in  $\text{CHCl}_3$ ).
