Available online 13 June 2005

In Table 1 on page 7690, the products listed in entries **5** and **7** are incorrect and footnote ‘b’ is incorrect. These should read as follows:

Entry	Aryl–X	Substrate	Product	Time (h)	% Yield	TON
5^b	<i>p</i> -NO ₂ PhI	Styrene	<i>t</i> -pNO ₂ stilbene	24	100	>2.0 × 10 ³
7^b	<i>p</i> Br-anisole	Styrene	<i>t</i> -pMeOstilbene	24	65	1.3 × 10 ³

Footnote b should read as: ‘Conditions: 0.00053 mmol **1**, 25 mmol aryl-halide, 30 mmol of the styrene, 25 mL DMF, 30 mmol sodium acetate, 140–150 °C; *t*-stilbene = *trans*-stilbene; *t*-pNO₂stilbene = (*E*)-4-nitrostilbene; *t*-pMeOstilbene = (*E*)-4-methoxystilbene’.

The authors apologize for these errors.
