

SUBJECT INDEX

- Acetanilides**, benzoyl, action of Lewis acids and related compds 115
- Agave americana** gum, structure 233
- Aldehydes**, aromatic, electron-rich, diborane reduction to hydrocarbons 261
- Amines**, primary, reaction with 2,4,6-trimethylpyrylium perchlorate 9
- Amino acids**
 N-phosphoro- 307
 reaction with pyrylium salts 27
 sequences in peptides, determination by mass spectrometry 271
- Anisaldehyde**, complex products from diborane reduction 261
- Anthranil**
 3-methyl-, chlorination, nitration, spectra 49
 nitration, prep, spectra 49
- Arabinals**, D and L-, tri-O-acetyl-, fluorination by PbF_4 69
- Benzene**, 1,4-diphenyl-2,5-di(β -phenylvinyl)-, ozonolysis and irradiation 203
- Bianthrone**
 7,7'-dibromo-2,2',3,3'-tetramethyl-, synthesis and dipole moment 349
 5,5'-dichloro-2,2'-diisopropyl-, synthesis and dipole moment 349
 5,5'-difluoro-2,2'-diisopropyl-, synthesis and dipole moment 349
 dipole moment and conformation of derivs 349
- t-Butyl hypochlorite**, use in chlorination of 2-methylpyrroles and 5-methylpyrroketones 241
- Cannabidiol** and tetrahydro-cannabinol, distinction between 89
- Carbene**, dibromo-, addition to 1,4-dihydro-estrone derivs 391
- Charge transfer complexes** 97
- 5 α -Cholestanes**
 4 α - and 4 β -amino-, NMR spectra of acetyl derivs 315
 6 α - and 6 β -amino-, NMR spectra of acetyl derivs 315
- Cholest-4-ene**
 3 α -amino-, deamination to cholesta-2,4-diene 315
 3 α - and 3 β -chloro-, solvolysis products and proportions 315
 3 β -amino-, deamination to cholest-4-en-3 β -ol 315
- Chromatography**, gas-liquid, applied to structure determination of *Virgilia arboides* and *Agave americana* gums 233
- Cincholic acid**, partial synthesis 57
- Coupling constants**, variation of geminal with structure 355
- Cyanomacluran**
 1,3-dimethoxy-, synthesis and mass spectrum 139
 3,9-dimethoxy-, synthesis 139
 3-methoxy-, synthesis 139
 proposed new name for chromano chromans 139
- Cyclobutane**, methylene, degenerate rearrangement 397
- Cyclobutanes**, NMR analysis 75
- Cycloprop(a)acenaphthalene**
 7-cyano- 189
 intra-ionic rearrangement 189
- 1,2,5,6-Dibenzanthracene**, 3,7-diphenyl-3,4,7,8-tetrahydro- 203
- Dibenzylidene-acetone**, Huang-Minlon reduction 203
- Diborane reduction**
 aromatic aldehydes and ketones to hydrocarbons 261
 pyrroketones, pyrrole-aldehydes, -carboxylic acids and -amides 241
- Dixanthylene**
 2,2'- and 3,3'-dichloro-, synthesis and dipole moments 349
 dipole moment and conformation of derivs 349
- Electrophilic substitution**, in anthranil and 3-methyl-anthranil 49
- Enol esters** 415
- Epoxidation** of 1-methylene-2-keto-3,4-dihydronaphthalene 277
- Ethylene**, tetracyano-, complexes with aromatic hydrocarbons 97
- Fluorination** of tri-O-acetyl-D and L-arabinals by PbF_4 69
- Fluorine**, ionization potentials of fluorine-substituted benzenes, ethylenes and methyls 129
- D-Galactosylureas**, synthesis 281
- Glycine**, reaction with 2,4,6-trimethylpyrylium perchlorate 27
- Glycosylureas** 281
- Hashish**, analysis by mass-spectrometry 89
- Heterocyclic systems**, oxidation by molecular O_2 441
- Histidine**, substitution reaction with iodine 295
- A-Homotestosterone**, total synthesis 391
- Hydrocarbons**, aromatic complexes with tetra-cyanoethylene 97

- Imidazole derivs**, substitution reaction with iodine 295
- Iodination**, reaction of histidine acid imidazole derivs with iodine 295
- Ionization potentials** of fluorine-substituted benzenes, ethylenes and methyl radicals 127
- Isoflavonoids**, new, from *Piscidia erythrina* 333
- Isoxazolium salts**, reaction with nucleophiles 415
- Ketoketenimines** 415
- Ketones**
aromatic electron-rich, diborane reduction of hydrocarbons 261
Me-n- derivs, alternation in m.p. 45
- Lead tetrafluoride**, fluorination of arabinals 69
- Lisetin**, constitution 333
- Magnetic non-equivalence** of methyl and benzyl-methylene protons in salts of some alicyclic and heterocyclic bases 35
- D-Mannosylureas**, synthesis 281
- Melting points**, alternation in homologous series 45
- Methylquinolines**, polycondensed, prep from polycyclic aromatic acetamides 287
- Methylene groups**, proton spin coupling in 355
- π -Molecular complexes 97
- Naphthalene**, 1-formyl-2,3-dihydroxy-, new synthesis 277
- Nocardia asteroides**, peptidolipin 271
- Nucleophiles**
reaction with isoxazolium salts 415
reactions with pyrylium salts 1,9,27
- Oplopanone**
sesquiterpene from *Oplopanax japonicus* 219
structure and absolute configuration 219
- Oxazoles**, photosensitized autoxidation 441
- Oxidation** of heterocyclic systems by molecular O_3 441
- Oximes**, fragmentation in mass spectrometry 145
- Peptidolipin**, structure of Val⁶-peptidolipin NA 271
- Phenylene** 189
- Phenalenone** 189
- Phosphite**, trimethyl, reduction of α -nitro-aldehydes and ketones with 49
- Phosphoro-amino acids** 307
- Photochemistry**, transformations 57
- t-Phthalaldehyde**, 2,5-diphenyl-, peracetic acid oxidation 203
- Piscerythrone**, constitution 333
- Piscidia erythrina**, isolation of constituents 333
- Piscidone**, constitution 333
- Pregna-4,6,14-triene-3,20-dione**, 17 α -acetoxy-6-methyl-, 21-acetoxy derivs 325
- Pyrimidoquinazolones**, synthesis 227
- Pyroketones**
diborane reduction to pyromethanes 241
IR and UV spectra, prep, prop and reactions 241
- Pyrrrole aldehydes**, carboxylic acids and amides, diborane reduction 241
- Pyrylium**
2,4,6-trimethyl-perchlorate, reaction with primary amines 9
2,4,6-triphenyl-perchlorate, isolation of intermediate in conversion to 2,4,6-triphenylpyridine 1
salts, reactions with nucleophiles 1,9,27
- Quinazolones**, synthesis 227
- Quinolines**, polycondensed, prep from polycyclic aromatic acetamides 287
- 4(1H)-Quinolones**, 2-phenyl-, formation from benzoylacetanilides 115
- Radicals**, ionization potentials of substituted benzenes, ethylenes and methyls 127
- Rearrangement**
intra-ionic, of cycloprop(a)acenaphthalene 189
intramolecular, of certain 2,3-epoxy-1-ketones 277
of methylene cyclobutane 397
- Sesquiterpenoids** from *Oplopanax japonicus* 219
- Spectra**
mass, analysis of hashish 89
NMR, acetyl derivs of 4 α - and 4 β -amino-5 α -cholestanes 315
acetyl derivs of 6 α - and 6 β -amino-5 α -cholestanes 315
analysis of cyclobutanes 75
PMR of methylene groups 355
UV, new polycondensed quinolines and methyl quinolines 287
- Spectrometry**
mass application in structural and stereochemical problems 145
of peptidolipids 271
- Steroids**, 17 α -acetoxy-6-methylpregna-4,6,14-triene-3,20-dione, its 21-acetoxy deriv and related compds 325
- Tautomerism** of 1-phenyl-1,2,4-triazolidine-3,5-dione 213
- 1,2,4-Triazolidine-3,5-dione**, 1-phenyl-, tautomerism 213
- Trisporic C-acid**, structure 175
- Tropone**, analogues of oestrone, synthesis 391
- Virgilia arbores** gum, structure 233
