

## Erratum

The lab values for Table 1 in the article, “Thoracic aorta prostacyclin production is not altered during early atherosclerosis development in young swine,” by Joseph F. Norman, Charles W. Miller, and Kenneth G.D. Allen (*J. Nutr.*

*Biochem.* 6:163–169, 1995) were incorrectly listed as values of mmol/L. The correct listing for these values should have been mg/dL.
