

ANNOUNCEMENT

Enzymes, Receptors, and Drugs in Obesity and Atherosclerosis symposium

A symposium sponsored and organized by the International Society of Enzymology and the Canadian Atherosclerosis Society will be held May 7–9, 1998, at the Medical Sciences Building of the University of Toronto, Toronto, Canada. A broad spectrum of topics will be presented in six sequential symposia, entitled:

- I. Consensus conference: How should we assess atherosclerotic risk factors as we begin the “third millenium”?
- II. Enzymes in atherosclerosis and obesity
- III. Pathophysiology of atherosclerosis
- IV. Epidemiologic, genetic, and metabolic aspects of obesity
- V. Insulin resistance in atherosclerosis and obesity

VI. Receptors in atherosclerosis and obesity

Faculty have been convened from North America and Europe by a Scientific Advisory Committee and International Advisory Board based on their internationally recognized research in the areas on which they are speaking. Abstract and poster presentations submissions are encouraged and must be received by 1 March 1998. To receive the preliminary program, which, in addition to presentation details, contains information pertaining to registration, accommodation, abstract and poster submissions, CE credits, and fees, please contact: Dr. H.V. Markle, Department of Laboratories, Centenary Health Centre, 2867 Ellesmere Road, Scarborough, Ontario, Canada M1E 4B9; tel: 416-281-7251; fax: 416-265-8781; e-mail: HVM@myna.com (Symposium Web-Site: <http://www.clinitox.com/erdoa/>).
