

The Journal of Nutritional Biochemistry (JNB) is an international journal devoted to advancements in nutrition science. Its major focus is on investigations about nutrients that overlap with the areas of biochemistry molecular biology, neurochemistry, toxicology, and pharmacology. For details concerning the preparation of manuscripts see Information for Authors, which is published in each issue of the journal.

The Journal of Nutritional Biochemistry is published monthly by Elsevier Inc., 360 Park Avenue South, New York, NY 10010-1710.

Subscription Rates (2005): Institutional price: US\$916.00 for all countries except Europe and Japan; JPY 108,700 for Japan; EUR 820 for European countries. Personal price: US\$244.00 for all countries except Europe and Japan; JPY 28,900 for Japan; EUR 217 for European countries. Prices include postage and are subject to change without notice. For additional information contact Elsevier, Journals Customer Service, 6277 Sea Harbor Drive, Orlando, FL 32887-4800, USA, US Toll Free Tel.: 1-877-839-7126, Toll Free (for customers outside the US): 1-407-345-4020, Fax: 1-407-363-1354, E-mail: usjcs@elsevier.com. Claims for missing issues can be honored only up to three months for domestic addresses, six months for foreign addresses. Duplicate copies will not be sent to replace one undelivered through failure to notify Elsevier of change of address. Single copy and back volume information available upon request. Periodicals postage paid at New York, NY and at additional offices.

POSTMASTER: Send address changes to *The Journal of Nutritional Biochemistry*, Journals Customer Service, 6277 Sea Harbor Drive, Orlando, FL 32887-4800 USA.

(For Post Office use only: Volume 16 issue 4 of 12.)

This journal and the individual contributions contained in it are protected under copyright by Elsevier Inc. and the following terms and conditions apply to their use:

Photocopying: Single photocopies of single articles may be made for personal use as allowed by national copyright laws. Permission of the publisher and payment of a fee is required for all other photocopying, including multiple or systematic copying, copying for advertising or promotional purposes, resale, and all forms of document delivery. Special rates are available for educational institutions that wish to make photocopies for non-profit educational classroom use.

Permissions may be sought directly from Health Science Rights Department, Elsevier Inc., 170 S. Independence Mall W 300 E, Philadelphia, PA 19106-3399, USA; Tel: (+1) 215-238-7869; Fax: (+1) 215-238-2239; e-mail: healthpermission@elsevier.com. You may also contact Rights & Permissions directly through Elsevier's home page (<http://www.elsevier.nl>), selecting first 'Customer Support', then 'General Information', then 'Permissions Query Form'.

In the USA, users may clear permissions and make payments through the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA; Tel: (978) 750 8400, Fax: (978) 750-4744, and in the UK through the Copyright Licensing Agency Rapid Clearance Service (CLARCS), 90 Tottenham Court Road, London W1P 0LP, UK; Tel: (+44) 171 436 5931; Fax: (+44) 171 436 3986. Other countries may have a local reprographic rights agency for payments.

Derivative Works: Subscribers may reproduce tables of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the publisher is required for resale or distribution outside the institution.

Permission of the publisher is required for all other derivative works, including compilations and translations.

Electronic Storage or Usage: Permission of the publisher is required to store or use electronically any material contained in this journal, including any article or part of an article. Contact the publisher at the address indicated.

Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the publisher.

Address permissions requests to: Elsevier Inc. Rights & Permissions Department, at the mail, fax and e-mail addresses noted above.

Notice: No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made.

Although all advertising material is expected to conform to ethical (medical) standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

The Journal of Nutritional Biochemistry

Volume 16, Number 5, May 2005

CONTENTS

RESEARCH ARTICLES

- 259** Trapping of growth factors by catechins: a possible therapeutical target for prevention of proliferative diseases
Michael Xavier Doss, Shiva Prasad Potta, Jürgen Hescheler, Agapios Sachinidis
- 267** Effect of postexercise carbohydrate supplementation on glucose uptake-associated gene expression in the human skeletal muscle
I-Shiung Cheng, Ning-Yuean Lee, Kai-Li Liu, Su-Fen Liao, Chiung-Hsueh Huang, Chia-Hua Kuo
- 272** Detection of a single nucleotide polymorphism in the human α -lactalbumin gene: implications for human milk proteins
Winyoo Chowanadisai, Shannon L. Kelleher, Jennifer F. Nemeth, Stephen Yachetti, Charles F. Kuhlman, Joan G. Jackson, Anne M. Davis, Eric L. Lien, Bo Lönnérdal
- 279** Tissue leptin and plasma insulin are associated with lipoprotein lipase activity in severely obese patients
Joana M. Ramis, Bartolomé Bibiloni, José Moreira, José M. García-Sanz, Ramón Salinas, Ana M. Proenza, Isabel Lladó
- 286** Vitamin D receptor is required for dietary calcium-induced repression of calbindin-D9k expression in mice
Merry J.G. Bolt, Li-Ping Cao, Juan Kong, Michael D. Sitrin, Yan Chun Li
- 291** A novel assay of cell rubidium uptake using graphite furnace atomic absorption: application to rats on a magnesium-deficient diet
Yueying Zhen, Kay B. Franz, Steven W. Graves
- 297** Antioxidants as novel therapy in a murine model of colitis
Helieh S. Oz, Theresa S. Chen, Willem J.S. de Villiers, Craig J. McClain
- 305** Free phytosterols facilitate excretion of endogenous cholesterol in gerbils
K.C. Hayes, Andrzej Pronczuk, Vasuki Wijendran, Michael Beer
- 312** Diabetes and dietary copper alter ⁶⁷Cu metabolism and oxidant defense in the rat
Janet Y. Uriu-Adams, Robert B. Rucker, Joel F. Commisso, Carl L. Keen
