7	-0.0004	-0.0018	+0.0012	+0.0004	-0.0005	-0.0005

The diagram of the orbits of the three bodies in this example is found in Figure 4. The length of the side of the equilateral triangle is taken as the unit length.

In conclusion, the author wishes to express his thanks to his former colleague, F. M. Wood, M.A., B.Sc., for verifying the algebraic and numerical computations in this paper.
