ERRATA, VOLUME 85

The Fatou theorem and its converse. By F. W. Gehring. Pages 106–121.

Page 107, Lemma 1. For "$k(x)$ *is in* $Mf(x)$" read "$k(x)$ *is in* M *if* $f(x)$."
Page 112, Theorem 3. For "$D_\psi u(re^{i\theta}) = O^n(r^{\delta-n})$" read "$D_\psi^n u(re^{i\theta}) = O(r^{\delta-n})$."
Page 114, Theorem 5. For "$Ay(x^2+y^2)$" read "$Ay/(x^2+y^2)$."
Page 116, Theorem 9. For "$D_a^n(re^{ib})$" read "$D_a^n u(re^{ib})$."
Page 116, Theorem 10. For "$(b-a)\delta+R-\mu \neq 0$" read "$(b-a)\delta+\eta-\mu \neq 0$."
Page 116, Theorem 10. For "$Br^{\delta-m}$" read "$Br^{\delta-n}$".
