ERRATA TO "RECURSIVE LABELLING SYSTEMS AND STABILITY OF RECURSIVE STRUCTURES IN HYPERARITHMETICAL DEGREES"

C. J. ASH

p. 500, lines 13 and 14: (1) For each $u \in T_0$ there exists $l \in L$ such that $S(u, l)$ and $F(l) \neq \varnothing$.

p. 501, line -7: "not" should be "to".

p. 502, lines 13 and 14: assigns to each index for a Δ_β^0 labelling of p_β an index for a Δ_α^0 labelling of p_α having at least the same adherent points.

p. 507: In the statement of Lemma 3, "$\leq_\alpha$" should be "$\vartriangleleft_\alpha$".

pp. 507, 508: The assumption that the existential diagram of $\mathfrak{A}$ is recursive is not needed for these proofs of Theorems 1 and 2. It does seem to be needed for Lemma 5 et seq.

p. 509, line -8: "as in" should be "is a".

p. 513: In the statement of Theorem 8, "$\delta + n \leq 2$" should be "$\delta + n \geq 2$".

C. J. Ash, *Recursive labelling systems and stability of recursive structures in hyperarithmetical degrees*, Trans. Amer. Math. Soc. **298** (1986), 497–514.
