

ANNOUNCEMENTS

Organized in 1974, the INTERNATIONAL SOCIETY FOR CRYOSURGERY was established to foster the continued development and application of cryosurgery for the controlled cryogenic destruction of abnormal tissues.

An integral part of this development and application lies not only in advances in instrumentation and sophistication of technique toward attainment of improved methods of clinical palliation and treatment, but in increased knowledge of the biochemical, physiological, immunological and morphological alterations following freezing.

Presently the SOCIETY holds an International Congress every third year where the latest results in multiple disciplines are presented and discussed. "State of the Art" round tables in which leading authorities address the SOCIETY has been a major feature at the congresses.

The SOCIETY welcomes applications for membership from individuals whose qualifications and interests have been demonstrated by experience and publications in a relevant field. Applications for membership may be obtained from the SOCIETY's Secretary, DR. MARCO LAUDI, Via Thesauro 3, 10125 TORINO, ITALY. Annual dues are \$ 15.00-. Successful applicants will be billed following election to membership.

June 17-20, 1979
Amsterdam

16th Congress of the
European Dialysis and
Transplant Association
and 8th Annual
Conference of the
