VOLUME 2 • NUMBER 1

PROGRAMS

A Spy Tale

Experience the mystery and intrigue of the spy underworld. Electric fences, falling cages, laser beams and the perils of outer space could mean your doom. Great graphics & multiple challenges make for a stimulating game every play.

Scott Elder

Big Alphabet

Your children will delight in learning their ABC's with this musical alphabet teacher. Ten favorite nursery songs make learning enjoyable.

James Frost

Memorizer

Can you match all the shapes before the time runs out? This challenging adaptation of the card game *Concentration* is quite playable and surprisingly demanding.

Mike Cooke

Top Secret

Safeguard your confidential documents on disk from probing eyes. *Top Secret* will scramble any sequential text file then let you select a 6-character keycode. It is only with this code that your file can be unscrambled.

John Augustine

MOB Hunt

Now you can use any SPRITE you find in your own programs. Save them to disk then load with a SPRITE editor. Fast & easy.

James Host

Commando-64

The easy way to perform complicated disk directory operations without involving yourself in the mechanics of Commodore DOS. Alphabetical directory sorting, file deletion and pop-up menu displays make for uncomplicated operation.

Mark MacDonald

TUTORIALS

Graphic Demo 128

Graphics techniques are explained in a way that makes programming easy.

Ian Adam

RAM Expansion: 1

This series will give you a firm grasp on how to program the Commodore Random Access Memory expansion units.

Programming with Machine Language

An introduction to the Commodore operating system, known as *The Kernal*.

Learning FORTH: 3

This easy to understand tutorial is ideal for the programmer just beginning to explore FORTH.

FORTH Syntax: 3

We continue the list of commands that are used when programming in FORTH. A great help to both first time and experienced programmers.

REVIEWS

Chernobyl: The Nuclear Power Plant Simulation

Software disaster simulation from COSMI.

R'ykandar Korra'ti

Aztec-C

C:development system from Manx.

Bruce Jaeger

Demon Stalker

A challenge of 97 maze levels from Electronic Arts.

Jon Perregaux

Copy II 64/128

Copy-protected software duplication from Central Point Software

Jon Perregaux

Stealth Mission

Fly the plane that can't be seen from subLogic.

UP TIME

THE DISK MONTHLY

Dear Friend,

I'm sure you're excited about the bonuses and premium offers in this month's UpTime retail package. You'll want to take advantage of one of these offers today:

- Earn an exciting rebate. A three dollar rebate is yours for filling out the enclosed form and returning it to UpTime.
- Enjoy your next issue of UpTime *free*. Fill out the enclosed coupon and send it in. Next month we'll send your free UpTime disk directly to your home, school or office.
- Take ten dollars off the already incredibly low one year subscription price. Yes, save money as you enjoy UpTime delivered right to you all year long.

These bonus offers are our way of showing our appreciation for the support you've given us in making UpTime the world's largest publication of it's kind. You may have read about UpTime this past year in *USA TODAY*, *The New York Times* or *Inc. Magazine*. UpTime has truly arrived. We're making history through the strong backing you've given the UpTime concept.

I hope you enjoy the bonus offers and even more so, I hope you enjoy UpTime each and every month. We pledge to continue to offer you the very best in entertainment, programming, variety and originality packed into every UpTime disk. You'll continue to find each disk brimming with the best for your computer.

Sincerely,

William A. Kelly
Publisher

PS: Mail your coupon today!
