

*D. Hottman,*

*Knob,*

*Nº 325*

*Patented July 31, 1837.*

# UNITED STATES PATENT OFFICE.

DAVID HOTTMAN, OF BALTIMORE, MARYLAND.

DRAWER, COMMODORE, AND CUPBOARD DOOR-KNOB.

Specification of Letters Patent No. 325, dated July 31, 1837.

*To all whom it may concern:*

Be it known that I, DAVID HOTTMANN, of Baltimore, in the State of Maryland, have invented a new and useful Improvement in  
5 Drawer, Commode, and Cupboard Door-Knobs, according to the annexed drawings, which form part of this specification, marked Figures 1, 2, 3, 4.

10 The nature of my improvement consists in inserting or otherwise fastening topically stained, painted, colored, gilt or silvered glass plates A of various patterns and sizes, into stocks of wood B, with either wooden  
15 or metal spindles C; and that for the purpose of variegating and increasing the brilliancy of the colors I place either colored

foil, colored paper, colored glass, colored metal, or looking glass D underneath of the said plates, according to the patterns required. But

What I claim as my invention of improvement and what I desire to secure by Letters Patent, is—

The combination only of the aforesaid parts, as a whole, in my method of making  
25 the above specified drawer, commode, and cupboard door knobs.

D. HOTTMANN.

Witnesses:

WILLIAM P. ELLIOT,  
WM. BISHOP.
