United States Patent Office.

JOHN SHAW, OF WHITBY, CANADA.

Letters Patent No. 112,083, dated February 21, 1871.

IMPROVEMENT IN KITCHEN-TABLES.

The Schedule referred to in these Letters Patent and making part of the same.

I, JOHN SHAW, of the town of Whitby, in the county of Ontario and Province of Ontario and Dominion of Canada, have invented certain Improvements in Kitchen-Tables, of which the following is a specification.

Nature and Objects of the Invention.

The object of my invention is to construct a table which combines a kneading-trough, bake-board, cupboard, spice-drawer, and kitchen-table, all in one.

Description of the Accompanying Drawing.

Figure I, isometrical view.

Figure II, section longitudinal.

General Description.

A is a trough for kneading the dough; it can be made any convenient depth or shape, but a semicircular shape is preferred.

a is a vent for the escape of the water after cleaning, and is stopped by a wooden plug.

B is the bake-board, which is a rectangular hollow tray, any convenient depth, and slides on a tongue-

and-groove joint over the body of the table, covering the kneading-trough A.

C is the movable top of the table, and is held to the bake-board B either by three cleats, D D D, or hinges, whichever way may be found most convenient.

E is a cupboard for holding pans and other necessary articles, and is fitted up with two or more shelves, and is closed by a door in the ordinary way.

F is a drawer for holding spices, and is divided into compartments for that purpose.

Claim.

What I claim as my invention is—

The combination of the kneading-trough A, bake-board B, movable top C, held to the table-board B by three cleats, D D D, or hinges G, the cupboard E, and the spice-drawer F, substantially as described.
