United States Patent Office.

STEWART WATT, OF BARNESVILLE, OHIO.

Letters Patent No. 113,711, dated April 11, 1871.

IMPROVEMENT IN STOVE UTENSIL-HOLDERS.

The Schedule referred to in these Letters Patent and making part of the same.

To all whom it may concern:

Be it known that I, STEWART WATT, of Barnesville, in the county of Belmont and State of Ohio, have invented certain new and useful Improvements in Stove-Utensil Holder; and I do hereby declare that the following is a full, clear, and exact description thereof, reference being had to the accompanying drawing and to the letters of reference marked thereon which form a part of this specification.

The nature of my invention consists in the construction and arrangement of what I term a "cooking-stove utensil-holder," as will be hereinafter more fully set forth.

In order to enable others skilled in the art to which my invention appertains to make and use the same, I will now proceed to describe its construction, referring to the annexed drawing, which represents a perspective view of my invention.

A represents the circular base with feet B B cast on the same.

C is a cast-iron post of suitable height connecting the base A with the circular top D, said base and top being attached to the post by screws, rivets, or other suitable means.

The top D is intended for a holder for stove-lids and culinary vessels; around its circumference are upward-projecting angular ears *a a*, designed to prevent articles placed on top from sliding off.

Cast with the top D, on one side, is a hook, *b*, for holding the stove-lifter.

d d are wrought-iron hooks cast fast to the top D, and designed to hold irons, skillets, and other cooking utensils.

Wrought-iron hooks *e e* are also cast into the post C for a similar purpose.

Having thus fully described my invention,

What I claim as new, and desire to secure by Letters Patent, is—

The within-described cooking-stove utensil-holder, composed substantially of the base A, post C, top D, projections *a a*, and hooks *b*, *d*, and *e*, for the purposes herein set forth.

In testimony that I claim the foregoing as my own I affix my signature in presence of two witnesses.

STEWART WATT.
