k. 25 October 1949 - The Joint Chiefs of Staff approved the recommendations of J.C.S. 2010/10 and 2010/11. (This action permitted the consolidation and organization plans to be implemented.)

l. 16 December 1949 - The Assistant Secretary of Defense (Comptroller) promulgated a memorandum "Financing of Armed Forces Security Agency." (Appendix to J.C.S. 2010/14)

m. 25 December 1949 - The Director, AFSA assumed administrative control of all civilian personnel performing functions for which he assumed operational control on 1 October 1949.

3. The status of consolidation as of 1 January 1950 is as follows:

a. Functional Consolidation

The Armed Forces Security Agency was established in order to provide for the placing under one authority the conduct of communication intelligence and communication security activities within the Department of Defense, except for those activities which are to be conducted individually by the Departments of the Army, the Navy, and the Air Force. On 1 October 1949, as indicated in subparagraph 2i, above, the Director, AFSA, assumed operational control of the cryptologic activities of the Department of Defense as provided in the Secretary of Defense directive, effecting functional consolidation. The organization as approved in J.C.S. 2010/11 has been placed in effect.

b. Physical Consolidation

The general consolidation plan approved by the Joint Chiefs of Staff on 25 October 1949 (see subparagraph 2k. above), provided the basis for a detailed physical consolidation and movement plan which had the objective of concentrating essentially all communication intelligence and

associated research and development activities at Arlington Hall Station, Virginia and essentially all communication security and associated research and development activities at the Navy Communication Station, Washington, D. C. The plan was so designed as to permit the movement to take place in the minimum amount of time consistent with the requirement for continuing the cryptologic operations at a high level during the move. As of 31 December 1949 the movement schedule was 70% complete. It is estimated that, with one minor exception, the physical consolidation will be completed by 31 January 1950.

c. Administrative Consolidation

(1) The following administrative actions have been taken in connection with subject consolidation.

(a) Establishment of AFSA Headquarters at Navy Communication Station, Washington, 15 July 1949. (Enclosure to J.C.S. 2010/5)

(b) The Department of the Army was appointed as the Fiscal Agent for AFSA on 16 December 1949. (Appendix to J.C.S. 2010/14)
