(b) (6) We wanted to reach out with the impending storm, Hurricane Matthew, approaching the DC area and expected to hit the area with Category 1 or Category 2 strength based on the current information. The forecast has kicked in our protocol at the Federal level to prepare for the storm and many of our buildings that are potentially impacted are located in the Federal Triangle.

We are hopeful that your staff in some capacity can be available for a walk of the site TOMORROW AT 2:30 with our subject matter experts to provide you with our lessons learned from previous storms. At that time, we can identify specific areas that may had have issues in the past. We are hopeful that this site can help you all make an informed decision about how you protect the building.

Please advise if this time does not work.

Hi (b) (6) Do you need us to come out tomorrow am? If so, can you send us documentation regarding what has been completed and what we need to reinspect?

Thanks. Laura

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from KCS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Best,

Laura,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TCO so I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

Best,

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have ECS and JH provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from ECS and JH Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by JH separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised TCO after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Yes, we need GSA to come out tomorrow at a time convenient to you. We intend to show you the remaining rooms on the second floor and the NPS space on the 9th, 10th and 12th Floors if JH has had time to review the shop drawings attached to the link below. If not we will not go to the NPS space. Patrick, please confirm the room numbers on the 2nd floor we are looking at tomorrow.

This link has the revised NFP sprinkler drawings just received from Lend Lease for the NPS space. These incorporate changes to the 9th floor corridor per JH comments (such as adding sprinkler heads in the corridor on 9). The upper floors of the NPS space had comments from JH that were addressed in the attached e-mail. We have asked NFP to add these notes to the upper floor shop drawings and expect those later today or early tomorrow. I am told there are not changes to the drawings just the notes.

I have also attached for your reference the original submission of the NPS Sprinklers to JH August 30, 2016. We will forward you JH approved drawings when we receive them after they have had a chance to review these new drawings. It is our understanding that these current drawings comply with all the comments from JH during the installation and the work was installed accordingly.

Hi (b) (6) Do you need us to come out tomorrow am? If so, can you send us documentation regarding what has been completed and what we need to reinspect?

Thanks. Laura

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from ECS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Best,

Laura,

I believe that you have already spoken to (b) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the T C Oso I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.?
I came down for this as well, so will plan to participate.

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have E C Sand J H provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Storm Prep walk through

(b) (6)

We wanted to reach out with the impending storm, Hurricane Matthew, approaching the DC area and expected to hit the area with Category 1 or Category 2 strength based on the current information. The forecast has kicked in our protocol at the Federal level to prepare for the storm and many of our buildings that are potentially impacted are located in the Federal Triangle.

We are hopeful that your staff in some capacity can be available for a walk of the site TOMORROW AT 2:30 with our subject matter experts to provide you with our lessons learned from previous storms. At that time, we can identify specific areas that may had have issues in the past. We are hopeful that this site can help you all make an informed decision about how you protect the building.

Please advise if this time does not work.

Our POCs (in addition to your primary Mike/Glenn) cc'd herein are as follows:

Anthony Mondy
202-680-2023

and/or

Kevin Rattliff
202-396-3982

As always, you can certainly reach out to me directly if you need something.

We look forward to hearing you this evening or early tomorow morning.

Thanks,
Brett

I apologize for the late response, it's the year end close out for GSA and it's been very busy week. Tuesday, Oct. 11th would be GSA's preferred date for delivery and installation of the furniture.

Storm Prep walk through

(b) (6)
We wanted to reach out with the impending storm, Hurricane Matthew, approaching the DC area and expected to hit the area with Category 1 or Category 2 strength based on the current information. The forecast has kicked in our protocol at the Federal level to prepare for the storm and many of our buildings that are potentially impacted are located in the Federal Triangle.
We are hopeful that your staff in some capacity can be available for a walk of the site TOMORROW AT 2:30 with our subject matter experts to provide you with our lessons learned from previous storms. At that time, we can identify specific areas that may had have issues in the past. We are hopeful that this site can help you all make an informed decision about how you protect the building.
Please advise if this time does not work.
Our POCs (in addition to your primary Mike/Glenn) cc'd herein are as follows:
Anthony Mondy
202-680-2023
and/or
Kevin Rattliff
202-396-3982
As always, you can certainly reach out to me directly if you need something.
We look forward to hearing you this evening or early tomorrow morning.
Thanks,
Brett

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from ECS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Best,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TCO so I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have ECS and JH provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from ECS and JH Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by JH separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised TCO after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Attached are letters from ECS (Third Party Testing and Inspection) and Jensen Hughes (Fire Alarm, Sprinkler and Life Safety) for the OPO recommending extension of the TCO. As I understand it GSA LS is busy tomorrow with the short week so if you could give us another day to review the 1st floor and 5th floor rooms noted on the letters. In the meantime if you could provide the TCO extension in advance of that walk through we would appreciate it since it expires October 11. Let us know if you have any questions. Thanks.

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from ECS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TCO so I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

Laura,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TCO so I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

Best,

Just confirming that we are on for tomorrow am. Please send us the letters from JH today so that we can review their documentation prior to our walk through. Thanks. Laura

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have ECS and JH provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from ECS and JH Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by JH separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised TCO after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Do we need to have a conference / discussion on the

proposed cleaning methods required to correct the paint attack on the Old Post Office over the weekend?

Since we're in a transition between construction and operations teams, I'm not sure who is dealing with this issue, so thought it might be helpful to email all here.

Whatever you do it better be quick. The longer you wait the more it will penetrate into the stone and be harder to remove. The best removals are done within 24 hours of the event. There are graffiti remover products ProSoCo has one but if we wait too long it may leave a shadow behind.

Thank you Teresa for including me. Please see my response to these questions from a GSA FOIA perspective (In Blue Font).

Questions:

1. Per our FOIA request, we are still missing the 2014, 2015, and 2016 annual statements pertaining to section 5.3(b) of the ground lease signed by Mr. Trump and the GSA. Are you able to provide those?

Link to the

lease: ([http://www.gsa.gov/portal/mediaId/233119/fileName/Part_One_of_Segment_001_of_OPO_Ground_Lease_\(2013\)_RA.action](http://www.gsa.gov/portal/mediaId/233119/fileName/Part_One_of_Segment_001_of_OPO_Ground_Lease_(2013)_RA.action))

Ashley Nash-Hahn provided CNN these docs that we can release per the FOIA Act Law and a statement from GSA on September 17, 2016 at 3:39pm and we are providing them again attached along with the email traffic.

2. Have you at any time during the course of this lease exercised your right to conduct an audit of tenant's finances per section 5.4 of the ground lease?

---If so, what was the result of the audit? Please share any documentation regarding the audit(s). *This cannot be addressed by the GSA FOIA Division.*

---If you have not exercised your right to audit, how have you been able to consistently verify that tenant has always remained above the net worth threshold and the liquid assets threshold, as stipulated in Section 4(b) of Exhibit B-2, the Bad Acts Guaranty? *This cannot be addressed by the GSA FOIA Division. This needs to be addressed by the Program Office in NCR.*

Kevin and Ashley,

I wanted to follow up on our FOIA requests labeled 2016-000950, 001016, 001017, 001018 and 001019, that were originally submitted in July and early August. We are running a story tomorrow evening on CNN on the contract between the GSA and Mr. Trump. We kindly ask for a response to the below questions by no later than this time tomorrow (Thursday) so that we are able to adequately incorporate your responses into our piece.

Sincerely,

Chris Welch

Questions:

1. Per our FOIA request, we are still missing the 2014, 2015, and 2016 annual statements pertaining to section 5.3(b) of the ground lease signed by Mr. Trump and the GSA. Are you able to provide those?

Link to the lease:

2. Have you at any time during the course of this lease exercised your right to conduct an audit of tenant's finances per section 5.4 of the ground lease?

---If so, what was the result of the audit? Please share any documentation regarding the audit(s).

---If you have not exercised your right to audit, how have you been able to consistently verify that tenant has always remained above the net worth threshold and the liquid assets threshold, as stipulated in Section 4(b) of Exhibit B-2, the Bad Acts Guaranty?

3. Has GSA sent tenant a notice of deficiency of performance (notice of default) for any reason during the course of this lease?

4. Is it a requirement that all GSA staff who worked on this lease agreement sign a non-disclosure agreement upon leaving the GSA? Is that standard practice for anyone who works on a lease procurement or is it specific to this lease agreement concerning Mr. Trump?

Hi Chris,

Please see the attached doc. The following is on background, attributable to a GSA spokesperson:

The certificates of financial status represented a ministerial requirement under the terms of the lease. When notified of the missing certificates, the Trump Organization promptly provided them to GSA, and GSA shared those with CNN. The missing certificates had no impact on the guaranty or the project itself.

Hi Ashley,

While we appreciate a willingness by Kevin to answer written questions, we are very much hoping to have a discussion with him that could take several different paths depending on information he shares with us. We also have documents that we would like to show him that we would not be comfortable sending electronically. And we would be very grateful if he would allow us to meet with him in person.

To further that goal, we will agree to keep the conversation on background. While our preference would be to have him on the record, what we need is technical information-- to put the documents we have in context of the lease agreement--and a candid conversation with the person who represented the GSA in this deal.

Edmund

Mr. (b) (6) and I was discussing the COI for the furniture installation and would like to know if you could forward sample copy of a COI you have used in the past. Thanks

Storm Prep walk through

(b) (6)

We wanted to reach out with the impending storm, Hurricane Matthew, approaching the DC area and expected to hit the area with Category 1 or Category 2 strength based on the current information. The forecast has kicked in our protocol at the Federal level to prepare for the storm and many of our buildings that are potentially impacted are located in the Federal Triangle.

We are hopeful that your staff in some capacity can be available for a walk of the site TOMORROW AT 2:30 with our subject matter experts to provide you with our lessons learned from previous storms. At that time, we can identify specific areas that may have had issues in the past. We are hopeful that this site can help you all make an informed decision about how you protect the building.

Please advise if this time does not work.

Our POCs (in addition to your primary Mike/Glenn) cc'd herein are as follows:

Anthony Mondy
202-680-2023

and/or

Kevin Rattliff
202-396-3982

As always, you can certainly reach out to me directly if you need something.

We look forward to hearing you this evening or early tomorrow morning.

Thanks,

Brett

We wanted to reach out with the impending storm, Hurricane Matthew, approaching the DC area and expected to hit the area with Category 1 or Category 2 strength based on the current information. The forecast has kicked in our protocol at the Federal level to prepare for the storm and many of our buildings that are potentially impacted are located in the Federal Triangle.

We are hopeful that your staff in some capacity can be available for a walk of the site TOMORROW AT 2:30 with our subject matter experts to provide you with our lessons learned from previous storms. At that time, we can identify specific areas that may had have issues in the past. We are hopeful that this site can help you all make an informed decision about how you protect the building.

Please advise if this time does not work.

Our POCs (in addition to your primary Mike/Glenn) cc'd herein are as follows:

Anthony Mondy

and/or

Kevin Rattliff
[202-396-3982](tel:202-396-3982)

As always, you can certainly reach out to me directly if you need something.

We look forward to hearing you this evening or early tomorrow morning.
Thanks,
Brett

Good afternoon.

Attached are the new delinquency assignments

Also, the list has been copied into the "Delinquency Contacts" google doc

<https://docs.google.com/spreadsheets/d/1sMcyVn2UccHUtG5WQwrSKJH6AAH-4AhUwretCubBvM/edit#gid=1043395664>

Excluded from the assignments were debt appeal forbearance flag = true and Treasury referrals that have been identified in FedDebt.

At this time, OUTL can not rely on the Payags Treasury status of "processed" to determine that a debt has been referred to Treasury.

Once that field can be relied upon as accurate, we will let you know.

Yes, we need GSA to come out tomorrow at a time convenient to you. We intend to show you the remaining rooms on the second floor and the NPS space on the 9th, 10th and 12th Floors if JH has had time to review the shop drawings attached to the link below. If not we will not go to the NPS space. Patrick, please confirm the room numbers on the 2nd floor we are looking at tomorrow.

This link has the revised NFP sprinkler drawings just received from Lend Lease for the NPS space. These incorporate changes to the 9th floor corridor per JH comments (such as adding sprinkler heads in the corridor on 9). The upper floors of the NPS space had comments from JH that were addressed in the attached e-mail. We have asked NFP to add these notes to the upper floor shop drawings and expect those later today or early tomorrow. I am told there are not changes to the drawings just the notes.

I have also attached for your reference the original submission of the NPS Sprinklers to JH August 30, 2016. We will forward you JH approved drawings when we receive them after they have had a chance to review these new drawings. It is our understanding that these current drawings comply with all the comments from JH during the installation and the work was installed accordingly.

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from KCS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Best,

Laura,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TCO so I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have E C Sand J H provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Attached are two letters from Jensen Hughes for Life Safety and Fire Protection based on the review of the second floor today. Also attached is a letter from E C S for the second floor guest rooms. We will not be reviewing the ninth floor NPS space tomorrow until everyone has a chance to review the shop drawings. We intend to review the NPS space next week.

Laura,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TCO so I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from HCS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor

- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

The letters from KCS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TCO so I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have E C Sand J H provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Subject: Re: Updated OPO Punchlist Reviews

Just confirming that we are on for tomorrow am. Please send us the letters from JH today so that we can review their documentation prior to our walk through. Thanks. Laura

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have E C Sand J H provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

We have a meeting on site today at 2PM with Rose Restorations (a contractor that has already been doing rehabilitation work on site) and Mark Rabinowitz of CSI (our conservator) to make sure that the work is done properly. Mark has been in contact with Rose Restorations and Lend Lease over the weekend to make sure Rose was obtaining the right material. The work will begin today following a brief meeting verifying the procedure and Mark will observe the work to insure it is being implemented properly. We understand the urgency of starting the removal but doing it in a manner consistent with the Secretary's Standards as we have been doing all along with our restoration work.

Do we need to have a conference / discussion on the proposed cleaning methods required to correct the paint attack on the Old Post Office over the weekend?

Since we're in a transition between construction and operations teams, I'm not sure who is dealing with this issue, so thought it might be helpful to email all here.

Procedures should be developed and appropriate products be at hand so that damage can be addressed immediately should it happen again.

Whatever you do it better be quick. The longer you wait the more it will penetrate into the stone and be harder to remove. The best removals are done within 24 hours of the event. There are graffiti remover products ProSoCo has one but if we wait too long it may leave a shadow behind.

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have ECS and JH provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from ECS and JH Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by JH separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised TCO after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

I apologize for the late response, it's the year end close out for GSA and it's been very busy week. Tuesday, Oct. 11th would be GSA's preferred date for delivery and installation of the furniture.

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from KCS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Best,

Laura,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TCO so I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

Best,

Just confirming that we are on for tomorrow am. Please send us the letters from JH today so that we can review their documentation prior to our walk through. Thanks. Laura

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have E C Sand J H provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Attached are letters from ECS (Third Party Testing and Inspection) and Jensen Hughes (Fire Alarm, Sprinkler and Life Safety) for the OPO recommending extension of the TCO. As I understand it GSA LS is busy tomorrow with the short week so if you could give us another day to review the 1st floor and 5th floor rooms noted on the letters. In the meantime if you could provide the TCO extension in advance of that walk through we would appreciate it since it expires October 11. Let us know if you have any questions. Thanks.

I apologize for the late response, it's the year end close out for GSA and it's been very busy week. Tuesday, Oct. 11th would be GSA's preferred date for delivery and installation of the furniture.

Is CSI still available to assess and clean the stone?

Procedures should be developed and appropriate products be at hand so that damage can be addressed immediately should it happen again.

Whatever you do it better be quick. The longer you wait the more it will penetrate into the stone and be harder to remove. The best removals are done within 24 hours of the event. There are graffiti remover products ProSoCo has one but if we wait too long it may leave a shadow behind.

(b) (6) We wanted to reach out with the impending storm, Hurricane Matthew, approaching the DC area and expected to hit the area with Category 1 or Category 2 strength based on the current information. The forecast has kicked in our protocol at the Federal level to prepare for the storm and many of our buildings that are potentially impacted are located in the Federal Triangle.

We are hopeful that your staff in some capacity can be available for a walk of the site TOMORROW AT 2:30 with our subject matter experts to provide you with our lessons learned from previous storms. At that time, we can identify specific areas that may had have issues in the past. We are hopeful that this site can help you all make an informed decision about how you protect the building.

### Storm Prep walk through

(b) (6)

We wanted to reach out with the impending storm, Hurricane Matthew, approaching the DC area and expected to hit the area with Category 1 or Category 2 strength based on the current information. The forecast has kicked in our protocol at the Federal level to prepare for the storm and many of our buildings that are potentially impacted are located in the Federal Triangle.

We are hopeful that your staff in some capacity can be available for a walk of the site TOMORROW AT 2:30 with our subject matter experts to provide you with our lessons learned from previous storms. At that time, we can identify specific areas that may have had issues in the past. We are hopeful that this site can help you all make an informed decision about how you protect the building.

Please advise if this time does not work.

Our POCs (in addition to your primary Mike/Glenn) cc'd herein are as follows:

Anthony Mondy  
202-680-2023

and/or

Kevin Rattliff  
202-396-3982

As always, you can certainly reach out to me directly if you need something.

We look forward to hearing you this evening or early tomorrow morning.

Thanks,  
Brett

I apologize for the late response, it's the year end close out for GSA and it's been very busy week. Tuesday, Oct. 11th would be GSA's preferred date for delivery and installation of the furniture.

Whatever you do it better be quick. The longer you wait the more it will penetrate into the stone and be harder to remove. The best removals are done within 24 hours of the event. There are graffiti remover products ProSoCo has one but if we wait too long it may leave a shadow behind.

We have a meeting on site today at 2PM with Rose Restorations (a contractor that has already been doing rehabilitation work on site) and Mark Rabinowitz of CSI (our conservator) to make sure that the work is done properly. Mark has been in contact with Rose Restorations and Lend Lease over the weekend to make sure Rose was obtaining the right material. The work will begin today following a brief meeting verifying the procedure and Mark will observe the work to insure it is being implemented properly. We understand the urgency of starting the removal but doing it in a manner consistent with the Secretary's Standards as we have been doing all along with our restoration work.

Do we need to have a conference / discussion on the proposed cleaning methods required to correct the paint attack on the Old Post Office over the weekend?

Since we're in a transition between construction and operations teams, I'm not sure who is dealing with this issue, so thought it might be helpful to email all here.

Is CSI still available to assess and clean the stone?

Procedures should be developed and appropriate products be at hand so that damage can be addressed immediately should it happen again.

Good Afternoon JD and Mike

I just got off the phone with Michael Cohen, special Counsel to Donald Trump and he called to let me know that Mr. Trump would like to offer GSA the use of his 158,000 square-foot warehouse with 4500 sq ft of office space located at 4280 Pace St. North Charleston for FEMA at no charge. I thanked him and told him if we needed space I would reach out to him.

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from KCS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Best,

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have E C Sand J H provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from HCS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor

- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TCO so I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

If not we will not go to the NPS space. Patrick, please confirm the room numbers on the 2nd floor we are looking at tomorrow.

This link has the revised NFP sprinkler drawings just received from Lend Lease for the NPS space. These incorporate changes to the 9th floor corridor per JH comments (such as adding sprinkler heads in the corridor on 9). The upper floors of the NPS space had comments from JH that were addressed in the attached e-mail. We have asked NFP to add these notes to the upper floor shop drawings and expect those later today or early tomorrow. I am told there are not changes to the drawings just the notes.

I have also attached for your reference the original submission of the NPS Sprinklers to JH August 30, 2016. We will forward you JH approved drawings when we receive them after they have had a chance to review these new drawings. It is our understanding that these current drawings comply with all the comments from JH during the installation and the work was installed accordingly.

Hi (b) (6) Do you need us to come out tomorrow am? If so, can you send us documentation regarding what has been completed and what we need to reinspect?

Thanks. Laura

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from KCS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Best,

Laura,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TCO so I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Here's some more information regarding the parking garage sprinkler issue. To my knowledge, the HRF hasn't proceeded with the proposed study. I've cc'd Don and Hamid in case they have more recent knowledge of NFPA 13 updates.

"NFPA 88A

9.2.4 Fire Protection Systems.

9.2.4.1\* An automatic sprinkler system shall be installed in an automated mechanical-type parking structure in accordance with NFPA 13.

A9.2.4.1 As with the more conventional parking garages, NFPA 88A refers to other NFPA standards (NFPA 13, NFPA 14, NFPA 72, NFPA 101, and NFPA 5000) for certain fire protection features of automated-type parking structures. NFPA 13 at this time does not describe how to protect automated-type parking structures. The NFPA 13 approach to protection of multiple row racks [based on storage cubes of 1.22 m to 1.52 m (4 ft to 5 ft) on each side] does not adequately address the automated-type parking structure commodity [Group A plastics (vehicles with both plastics and fuel loads), of nominal dimensions 2.13 m x 5.79 m x 1.83 m (7 ft x 19 ft x 6 ft) high on solid shelves, dynamically controlled by the facility's "system"].

The Technical Committee on Garages and Parking Structures acknowledges that determining the minimum requirements for sprinkler protection is within the scope of the Sprinkler Project's Technical Committee on Sprinkler System Discharge Criteria. To identify the automatic sprinkler issues specific to the automated-type parking structures and to support the work of the Sprinkler Project, a research topic description proposal has been submitted to the Sprinkler Research Council of NFPA's Fire Protection Research Foundation."

Ben

I discussed this with Laura during the walkthrough.

GSA will require the parking garage sprinkler system to be designed to Ordinary Hazard, Group 2. The 90% Submittal FP documents indicate Ordinary Hazard, Group 1. In-rack or lower tier sprinklers are not required.

“The parking stacker manufacturer has advised that additional fire protection measures are typically required to provide coverage for the lower tier of parking stackers in enclosed spaces. Fire Protection drawings do not indicate any additional requirements for coverage in the garage space that these stackers are to be installed. Please advise if additional coverage is required for the lower tier of the parking stackers in the garage space of the Annex building. If so, please provide requirements for this additional coverage.”

The need for lower tier sprinklers is not mandated in the codes and standards (NFPA 88A or NFPA 13). The industry recognizes the need to standardize fire protection requirements for parking stackers. A proposal has been submitted to the NFPA research foundation to study sprinklers, fireproofing of the stacker supports, smoke and other provisions.

Please advise if additional coverage is required for the lower tier of the parking stackers in the garage space of the Annex building. We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have ECS and JH provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from ECS and JH Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by JH separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised TCO after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from ECS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Edmund,

Thank you for your continuing assistance and cooperation in our efforts to complete the remaining open items on this complex historic project. In response to direction provided yesterday by Laura Doyle and Joe Dafin we have developed a more detailed and complete set of procedures that will address all contingencies during any time when the building Fire Alarm system is bypassed to permit work to be performed in the building. This procedure would be used now as we finish the remaining portions of the building and become a permanent procedure to be used when needed in the future for renovations, or other construction or maintenance functions.

At the present time, the training of the Fire Alarm Operators will be performed by Freestate Electric while they are still engaged in the project. In the future, training of the Fire Alarm Operators would be performed by Building Engineers who are trained to operate the Fire Alarm system.

Attached are the procedures that respond to your recommendations, which have been reviewed with Jensen Hughes as well. These are being implemented as of today and will be posted prominently in the Fire Command Center.

Please let us know if you have any comments or further suggestions.  
Thank you

(b) (6) --

Attached below is the revised TCO for the Old Post Office, updated per our walk of the building with Laura Doyle and Joe Dafin this morning.

Please review Joe's comments attached below. We discussed on site the methods that should be used to manage the fire alarm system while work is going on in areas of the building. These include:

- 1) having a person trained in operation of the fire alarm stationed in the fire control room when sections of the fire alarm are affected or bypassed;
- 2) limiting the time any areas of the building are left without fire alarm and smoke control to specific periods when work is actually being undertaken, rather than simply hours that work may occur;
- 3) creating a log to show who is in the building, on what and where they are working and what sections of the fire alarm have been bypassed.

Please respond by the close of business tomorrow, Thursday, 9/29, with a written description of measures you have taken in order to meet the concerns raised regarding the building operations and working with the fire alarm.

I have copied (b) (6) and Craig Skinner, as the procedures described and developed now should apply to general procedures in hotel operations now, during LendLease punch list work, and in the future, when other contractors may be involved.

Edmund Newman, AIA, Project Manager

We do not believe that the emergency control function (fire safety functions) should be turned off as a normal procedure every day. If the elevator fire safety by-pass is activated, then the elevators in the building have no fire safety features, and must be turned off at their power source. If the atrium and stair pressurization system is "by-passed", then the building should not be occupied. Obviously, if certain specific pieces of equipment are being worked on, then their addresses need to be disabled at the FACP, and known "trouble" conditions monitored until the work is completed. Whole scale by-passing of emergency control features of the fire alarm

system is not allowed. The fire alarm system operator needs to be a fire alarm technician, or building engineer, and must be trained on the Simplex system there at the hotel. We believe that the Fire Alarm installer (FreeState Electric) should be managing the disabling of fire alarm system during construction times, even if the contractors doing the work aren't working for Lend Lease. All workers/contractors in the building should be managed, either by Lend lease, or the Trump org. The building is no longer a construction site, it is a hotel with some on-going construction activities.

Please pass this information to the Trump Organization.

Thanks,

Joe

We wanted to reach out with the impending storm, Hurricane Matthew, approaching the DC area and expected to hit the area with Category 1 or Category 2 strength based on the current information. The forecast has kicked in our protocol at the Federal level to prepare for the storm and many of our buildings that are potentially impacted are located in the Federal Triangle.

We are hopeful that your staff in some capacity can be available for a walk of the site TOMORROW AT 2:30 with our subject matter experts to provide you with our lessons learned from previous storms. At that time, we can identify specific areas that may have had issues in the past. We are hopeful that this site can help you all make an informed decision about how you protect the building.

Please advise if this time does not work.

Attached are two letters from Jensen Hughes for Life Safety and Fire Protection based on the review of the second floor today. Also attached is a letter from E C S for the second floor guest rooms. We will not be reviewing the ninth floor NPS space tomorrow until everyone has a chance to review the shop drawings. We intend to review the NPS space next week.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the T C Oso I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have E C Sand J H provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from ECS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

God Morning,

Laura is not in today and I plan on to inspect the 2nd floor areas on her behalf. Is 10:00 AM convenient?

## Thanks

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping

- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Best,

Laura,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TC Oso I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have E C Sand J H provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Yes, we need GSA to come out tomorrow at a time convenient to you. We intend to show you the remaining rooms on the second floor and the NPS space on the 9th, 10th and 12th Floors if JH has had time to review the shop drawings attached to the link below. If not we will not go to the NPS space. Patrick, please confirm the room numbers on the 2nd floor we are looking at tomorrow.

This link has the revised NFP sprinkler drawings just received from Lend Lease for the NPS space. These incorporate changes to the 9th floor corridor per JH comments (such as adding sprinkler heads in the corridor on 9). The upper floors of the NPS space had comments from JH that were addressed in the attached e-mail. We have asked NFP to add these notes to the upper floor shop drawings and expect those later today or early tomorrow. I am told there are not changes to the drawings just the notes.

I have also attached for your reference the original submission of the NPS Sprinklers to JH August 30, 2016. We will forward you JH approved drawings when we receive them after they have had a chance to review these new drawings. It is our understanding that these current drawings comply with all the comments from JH during the installation and the work was installed accordingly.

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have ECS and JH provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from ECS and JH Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by JH separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised TCO after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the T C Oso I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from ECS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Best,

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have ECS and JH provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from ECS and JH Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by JH separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised TCO after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from E C Sand Jensen Hughes are attached. I also attempted to mark-up the T C O to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the T C O.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the N P S space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Laura,

I believe that you have already spoken to Ajay, but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the T C O so I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

Attached are letters from ECS (Third Party Testing and Inspection) and Jensen Hughes (Fire Alarm, Sprinkler and Life Safety) for the OPO recommending extension of the TCO. As I understand it GSA LS is busy tomorrow with the short week so if you could give us another day to review the 1st floor and 5th floor rooms noted on the letters. In the meantime if you could provide the TCO extension in advance of that walk through we would appreciate it since it expires October 11. Let us know if you have any questions. Thanks.

Thanks, Kristen. I will push this through while you're out.

I don't see mention of a FLS ADA person in Brett's email...only Bobby Schall who is the Facilities Project Management Director. I know Bobby well and am happy to touch base with him, but I wanted to make sure there wasn't someone from FLS who it should also go to for approval.

Hi (b) (6)

Apologies for the delay in getting back to you. As we discussed on site a few weeks ago, attached below is the proposed interpretive plaque text to accompany the Robert Irwin sculpture in the Old Post Office cortile.

It is standard procedure for the GSA Fine Arts Program to provide interpretive material to accompany our art installations. If your team is amenable, we would love to work with you all to determine an appropriate location, size, and material for an interpretive plaque in the cortile.

Thanks for all of your assistance with the Irwin --

Shows you how much I know! I'm unfamiliar with Bobby and based on Brett's email, just assumed he had some official role related to ADA. I would send to Bobby and then also to FLS. (Maybe ask Brett if he has a preferred contact within FLS or if we should use the general mailbox - I'm not sure!) I think the trip hazard issue is FLS related, so they'll definitely want to see it as well.

Thanks!

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from ECS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Laura,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TC Oso I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

Best,

Attached are two letters from Jensen Hughes for Life Safety and Fire Protection based on the review of the second floor today. Also attached is a letter from E C S for the second floor guest rooms. We will not be reviewing the ninth floor NPS space tomorrow until everyone has a chance to review the shop drawings. We intend to review the NPS space next week.

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TC Oso I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

Best,

For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Yes, we need GSA to come out tomorrow at a time convenient to you. We intend to show you the remaining rooms on the second floor and the NPS space on the 9th, 10th and 12th Floors if JH has had time to review the shop drawings attached to the link below. If not we will not go to the NPS space. Patrick, please confirm the room numbers on the 2nd floor we are looking at tomorrow.

This link has the revised NFP sprinkler drawings just received from Lend Lease for the NPS space. These incorporate changes to the 9th floor corridor per JH comments (such as adding sprinkler heads in the corridor on 9). The upper floors of the NPS space had comments from JH that were addressed in the attached e-mail. We have asked NFP to add these notes to the upper floor shop drawings and expect those later today or early tomorrow. I am told there are not changes to the drawings just the notes.

I have also attached for your reference the original submission of the NPS Sprinklers to JH August 30, 2016. We will forward you JH approved drawings when we receive them after they have had a chance to review these new drawings. It is our understanding that these current drawings comply with all the comments from JH during the installation and the work was installed accordingly.

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from ECS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Laura – It is going to be limited to the remaining rooms on the second floor, so should be a quick walk through tomorrow. Attached are the procedures that respond to your recommendations, which have been reviewed with Jensen Hughes as well. These are being implemented as of today and will be posted prominently in the Fire Command Center.

Please let us know if you have any comments or further suggestions.

**Subject:** Fwd: Updated OPO Punchlist Reviews

(b) (6) --

Attached below is the revised TCO for the Old Post Office, updated per our walk of the building with Laura Doyle and Joe Dafin this morning.

Please review Joe's comments attached below. We discussed on site the methods that should be used to manage the fire alarm system while work is going on in areas of the building. These include:

- 1) having a person trained in operation of the fire alarm stationed in the fire control room when sections of the fire alarm are affected or bypassed;
- 2) limiting the time any areas of the building are left without fire alarm and smoke control to specific periods when work is actually being undertaken, rather than simply hours that work may occur;
- 3) creating a log to show who is in the building, on what and where they are working and what sections of the fire alarm have been bypassed.

Please respond by the close of business tomorrow, Thursday, 9/29, with a written description of measures you have taken in order to meet the concerns raised regarding the building operations and working with the fire alarm.

I have copied (b) (6) and Craig Skinner, as the procedures described and developed now should apply to general procedures in hotel operations now, during LendLease punch list work, and in the future, when other contractors may be involved.

Edmund Newman, AIA, Project Manager

We do not believe that the emergency control function (fire safety functions) should be turned off as a normal procedure every day. If the elevator fire safety by-pass is activated, then the elevators in the building have no fire safety features, and must be turned off at their power source. If the atrium and stair pressurization system is "by-passed", then the building should not be occupied. Obviously, if certain specific pieces of equipment are being worked on, then their addresses need to be disabled at the FACP, and known "trouble" conditions monitored until the work is completed. Whole scale by-passing of emergency control features of the fire alarm

system is not allowed. The fire alarm system operator needs to be a fire alarm technician, or building engineer, and must be trained on the Simplex system there at the hotel. We believe that the Fire Alarm installer (FreeState Electric) should be managing the disabling of fire alarm system during construction times, even if the contractors doing the work aren't working for Lend Lease. All workers/contractors in the building should be managed, either by Lend lease, or the Trump org. The building is no longer a construction site, it is a hotel with some on-going construction activities.

Please pass this information to the Trump Organization.

Thanks,

Joe

Laura

Here's some more information regarding the parking garage sprinkler issue. To my knowledge, the HRF hasn't proceeded with the proposed study. I've cc'd Don and Hamid in case they have more recent knowledge of NFPA 13 updates.

"NFPA 88A

9.2.4 Fire Protection Systems.

9.2.4.1\* An automatic sprinkler system shall be installed in an automated mechanical-type parking structure in accordance with NFPA 13.

A9.2.4.1 As with the more conventional parking garages, NFPA 88A refers to other NFPA standards (NFPA 13, NFPA 14, NFPA 72, NFPA 101, and NFPA 5000) for certain fire protection features of automated-type parking structures. NFPA 13 at this time does not describe how to protect automated-type parking structures. The NFPA 13 approach to protection of multiple row racks [based on storage cubes of 1.22 m to 1.52 m (4 ft to 5 ft) on each side] does not adequately address the automated-type parking structure commodity [Group A plastics (vehicles with both plastics and fuel loads), of nominal dimensions 2.13 m x 5.79 m x 1.83 m (7 ft x 19 ft x 6 ft) high on solid shelves, dynamically controlled by the facility's "system"].

The Technical Committee on Garages and Parking Structures acknowledges that determining the minimum requirements for sprinkler protection is within the scope of the Sprinkler Project's Technical Committee on Sprinkler System Discharge Criteria. To identify the automatic sprinkler issues specific to the automated-type parking structures and to support the work of the Sprinkler Project, a research topic description proposal has been submitted to the Sprinkler Research Council of NFPA's Fire Protection Research Foundation."

Ben

I discussed this with Laura during the walkthrough.

GSA will require the parking garage sprinkler system to be designed to Ordinary Hazard, Group 2. The 90% Submittal FP documents indicate Ordinary Hazard, Group 1. In-rack or lower tier sprinklers are not required.

“The parking stacker manufacturer has advised that additional fire protection measures are typically required to provide coverage for the lower tier of parking stackers in enclosed spaces. Fire Protection drawings do not indicate any additional requirements for coverage in the garage space that these stackers are to be installed. Please advise if additional coverage is required for the lower tier of the parking stackers in the garage space of the Annex building. If so, please provide requirements for this additional coverage.”

The need for lower tier sprinklers is not mandated in the codes and standards (NFPA 88A or NFPA 13). The industry recognizes the need to standardize fire protection requirements for parking stackers. A proposal has been submitted to the NFPA research foundation to study sprinklers, fireproofing of the stacker supports, smoke and other provisions.

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have ECS and JH provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from ECS and JH Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by JH separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised TCO after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Laura,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TC Oso I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

Best,

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have E C Sand J H provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Attached are letters from ECS (Third Party Testing and Inspection) and Jensen Hughes (Fire Alarm, Sprinkler and Life Safety) for the OPO recommending extension of the TCO. As I understand it GSA LS is busy tomorrow with the short week so if you could give us another day to review the 1st floor and 5th floor rooms noted on the letters. In the meantime if you could provide the TCO extension in advance of that walk through we would appreciate it since it expires October 11. Let us know if you have any questions. Thanks.

Shows you how much I know! I'm unfamiliar with Bobby and based on Brett's email, just assumed he had some official role related to ADA. I would send to Bobby and then also to FLS. (Maybe ask Brett if he has a preferred contact within FLS or if we should use the general mailbox - I'm not sure!) I think the trip hazard issue is FLS related, so they'll definitely want to see it as well.

Thanks!

Good Afternoon JD and Mike

I just got off the phone with Michael Cohen, special Counsel to Donald Trump and he called to let me know that Mr. Trump would like to offer GSA the use of his 158,000 square-foot warehouse with 4500 sq ft of office space located at 4280 Pace St. North Charleston for FEMA at no charge. I thanked him and told him if we needed space I would reach out to him.

1. THE ENEMY WITHIN

Trump Rented Space to Outlawed Iran Bank

Donald Trump’s company did business with an Iranian bank that has been linked to terrorist groups, according to a report from the International Consortium of Investigative Journalists. Public records obtained by the ICIJ show the Trump Organization rented Bank Melli several floors of New York office space from 1998 to 2003. The bank remained a tenant of Trump’s for years after the U.S. Treasury Department declared it to be controlled by the Iranian government in 1999. Bank Melli has been accused of helping to obtain materials for Iran’s nuclear program and funneling money to a unit of the Iranian Revolutionary Guard that has allegedly sponsored terrorist attacks. Those reported activities came as the Bank Melli rented office space in Fifth Avenue’s GM Building from Trump as well as the U.S. government’s embargo, which forbade Americans from doing business with Iran. Some organizations were given exemption licenses, but it’s not clear if that was the case in Trump’s case.

Kanye Ends Show  
After Kim Was  
Robbed

Kanye West on Sunday evening cut short his headlining set at the Meadows Music and Arts Festival in New York City after Kim Kardashian was reported to have been held at gunpoint in Paris. Kanye’s departure was abrupt, as he quickly told the crowd, “I’m sorry, there’s a family emergency, I have to stop the show,” before exiting the stage. The rapper was in the middle of his song “Heartless” when someone reportedly pulled him aside to speak with him. Shortly thereafter, news had broken that armed men disguised as police officers robbed Kim Kardashian West of what was reported to be as much as \$10 million in jewelry in a luxury Paris apartment early Monday. “Kim Kardashian West was held up at gunpoint... this evening by two armed masked men dressed as police officers. She is badly shaken but physically unharmed,” a representative said. The reality-TV star left on her private jet shortly after giving a statement to police. Five armed men reportedly stormed her residence, held up a security guard, and then gained entry to her apartment. According to CNN, Kardashian was locked in a bathroom, and the men stole two cellphones. They escaped on motorcycles, police said. Kardashian was in Paris for the city’s fashion week.

# Colombian Voters Reject FARC Peace Deal

A landmark peace deal between President Juan Manuel Santos and the FARC insurgent group was rejected Sunday by Colombian voters, a surprise outcome that risks renewing five decades of armed conflict in the country. Ahead of the vote, polls had regularly predicted the peace deal would win approval, but with turnout at just 38 percent, the number of “Yes” votes was narrowly beaten by “No” votes. In announcing the news, Santos vowed to continue fighting for a peace deal. “I won’t surrender. I will continue to look for peace until the last minute of my term.” The peace accord with FARC came after four years of negotiations and would have ended 52 years of conflict. Rodrigo Londoño, the top FARC commander, told a Colombian radio station the rebels would still fight for peace as well. “To the Colombian people who dream of peace, count on us,” he said. The “No” vote won’t affect a cease-fire that is already in place with FARC, Santos said.

Black Box Didn't Work  
on Hoboken Train

The New Jersey Transit train that slammed into Hoboken Terminal last week had no functioning data recorder that day, when the wreck killed one person and injured 100 more. A federal official said Sunday the dysfunctional “black box” means investigators cannot gather important information from the locomotive about what went wrong during Thursday morning’s rush hour. Bella Dinh-Zarr, vice chairman of the National Transportation Safety Board, said the issue with the black box- which was built in 1995- was one of many equipment failures on the train. “That’s quite an old event data recorder,” she said. “Usually when they’re not working, they’re replaced.”

Hurricane Bearing  
Down on Jamaica

Hundreds of Guantanamo Bay employees were evacuated as Hurricane Matthew tore through the Caribbean on Sunday with 145 mile-per-hour winds. The fierce storm is expected to slam Jamaica and Haiti on Monday, with the first effects already felt Sunday night and meteorologists warning of rainfall totals of as much as 40 inches. The U.S. National Weather Service warned of “life-threatening flash floods and mudslides” Sunday, adding that “preparations to protect life and property should be rushed to completion.” The storm is expected to hit the southern coast of Jamaica, where Kingston, the densely populated capital, is located. Haiti, still recovering from a 2010 earthquake that killed more than 200,000, was also in Hurricane Matthew’s path Sunday, as was Cuba. U.S. authorities evacuated more than 700 employees from the naval base at Guantanamo Bay as the storm approached. Military planes airlifted employees and their families- including pets- to Florida to escape the hurricane’s wrath, officials said.

LeBron James Endorses Hillary Clinton

Cleveland Cavaliers star LeBron James endorsed Hillary Clinton for president on Sunday evening. “[I]f basketball has taught me anything, it’s that no one achieves greatness alone. And it takes everyone working together to create real change,” he explained in an op-ed published both online and in the Akron Beacon Journal. “When I look at this year’s presidential race, it’s clear which candidate believes the same thing.

Only one person running truly understands the struggles of an Akron child born into poverty. And

when I think about the kinds of policies and ideas the kids in my foundation need from our government, the choice is clear. That candidate is Hillary Clinton.” Without ever mentioning Donald Trump’s name, James laid out why he believes Clinton is the person with solutions for four key issues: improving public schools, expanding access to health care, making college “a reality for more people in America,” and addressing the violence “of every kind” being experienced by the black community.

Tim Burton Wins the Weekend Box Office

Tim Burton’s fantasy adventure Miss Peregrine’s Home for Peculiar Children brought in \$28.5 million with its North American debut over the weekend, easily surpassing disaster drama Deepwater Horizon. Worldwide, Miss Peregrine brought in \$65 million. The film, which cost \$110 million to make, tells the story of a boy who travels to a remote island and meets a group of orphans with special powers led by Miss Peregrine, played by Eva Green. The film, from Fox and Chernin Entertainment, was adapted from Ransom Riggs’ best-selling novel. Deepwater Horizon, starring Mark Wahlberg, came in second place, with \$20.6 million from 3,259 movie theaters.

The United States took home the 41st Ryder Cup this weekend at Minnesota’s Hazeltine National Golf Club, snapping a frustrating string in which European teams had taken eight of 10 trophies. The 17-11 victory came as the first for an American squad of elite golfers since 2008 and was led by Davis Love III. For the first time since 1975, every U.S. player scored at least one point during the biennial men’s golf competition- an achievement last accomplished by a team led by Arnold Palmer, who died one week ago.

# Bush Daughter Attends Hil Fundraiser

Barbara Bush, a daughter of former President George W. Bush, attended a fundraiser for Hillary Clinton in Paris and posed for a photo with senior Clinton aide Huma Abedin. The fundraiser was co-hosted by Abedin and Vogue Editor-In-Chief Anna Wintour. Spokespeople for Bush and Clinton did not respond to CNN’s requests for comment. Last month it was reported that Bush’s grandfather, former President George H.W. Bush, told former Maryland Lt. Gov. Kathleen Kennedy that he will be voting for Clinton in the general election over Donald Trump, who trounced his son Jeb in the Republican primary. Jeb Bush has said he will vote for neither Trump nor Clinton.

(b) (6) We wanted to reach out with the impending storm, Hurricane Matthew, approaching the DC area and expected to hit the area with Category 1 or Category 2 strength based on the current information. The forecast has kicked in our protocol at the Federal level to prepare for the storm and many of our buildings that are potentially impacted are located in the Federal Triangle.

We are hopeful that your staff in some capacity can be available for a walk of the site TOMORROW AT 2:30 with our subject matter experts to provide you with our lessons learned from previous storms. At that time, we can identify specific areas that may had have issues in the past. We are hopeful that this site can help you all make an informed decision about how you protect the building.

Please advise if this time does not work.

Our POCs (in addition to your primary Mike/Glenn) cc'd herein are as follows:

Anthony Mondy  
202-680-2023

and/or

Kevin Rattliff  
202-396-3982

As always, you can certainly reach out to me directly if you need something.

We look forward to hearing you this evening or early tomorow morning.  
Thanks,  
Brett

We have a meeting on site today at 2PM with Rose Restorations (a contractor that has already been doing rehabilitation work on site) and Mark Rabinowitz of CSI (our conservator) to make sure that the work is done properly. Mark has been in contact with Rose Restorations and Lend Lease over the weekend to make sure Rose was obtaining the right material. The work will begin today following a brief meeting verifying the procedure and Mark will observe the work to insure it is being implemented properly. We understand the urgency of starting the removal but doing it in a manner consistent with the Secretary's Standards as we have been doing all along with our restoration work.

Do we need to have a conference / discussion on the proposed cleaning methods required to correct the paint attack on the Old Post Office over the weekend?

Since we're in a transition between construction and operations teams, I'm not sure who is dealing with this issue, so thought it might be helpful to email all here.

Is CSI still available to assess and clean the stone?

Procedures should be developed and appropriate products be at hand so that damage can be addressed immediately should it happen again.

Whatever you do it better be quick. The longer you wait the more it will penetrate into the stone and be harder to remove. The best removals are done within 24 hours of the event. There are graffiti remover products ProSoCo has one but if we wait too long it may leave a shadow behind.

I apologize for the late response, it's the year end close out for GSA and it's been very busy week. Tuesday, Oct. 11th would be GSA's preferred date for delivery and installation of the furniture.

Storm Prep walk through

(b) (6)  
We wanted to reach out with the impending storm, Hurricane Matthew, approaching the DC area and expected to hit the area with Category 1 or Category 2 strength based on the current information. The forecast has kicked in our protocol at the Federal level to prepare for the storm and many of our buildings that are potentially impacted are located in the Federal Triangle.  
We are hopeful that your staff in some capacity can be available for a walk of the site TOMORROW AT 2:30 with our subject matter experts to provide you with our lessons learned from previous storms. At that time, we can identify specific areas that may had have issues in the past. We are hopeful that this site can help you all make an informed decision about how you protect the building.  
Please advise if this time does not work.  
Our POCs (in addition to your primary Mike/Glenn) cc'd herein are as follows:  
Anthony Mondy  
202-680-2023  
and/or  
Kevin Rattliff  
202-396-3982  
As always, you can certainly reach out to me directly if you need something.  
We look forward to hearing you this evening or early tomorrow morning.  
Thanks,  
Brett

Good Afternoon JD and Mike

I just got off the phone with Michael Cohen, special Counsel to Donald Trump and he called to let me know that Mr. Trump would like to offer GSA the use of his 158,000 square-foot warehouse with 4500 sq ft of office space located at 4280 Pace St. North Charleston for FEMA at no charge. I thanked him and told him if we needed space I would reach out to him.

**Attachments:** FY17 AP01 OUTL Delinquency Assignments 10-6-16.xlsx

Good afternoon.

Attached are the new delinquency assignments

Also, the list has been copied into the "Delinquency Contacts" google doc

<https://docs.google.com/spreadsheets/d/1sMcyVn2UccHUtc5WQwrSKJH6AAH-4AhUwretCubBvM/edit#gid=1043395664>

Excluded from the assignments were debt appeal forbearance flag = true and Treasury referrals that have been identified in FedDebt.

At this time, OUTL can not rely on the Payags Treasury status of "processed" to determine that a debt has been referred to Treasury.

Once that field can be relied upon as accurate, we will let you know.

We have a meeting on site today at 2PM with Rose Restorations (a contractor that has already been doing rehabilitation work on site) and Mark Rabinowitz of CSI (our conservator) to make sure that the work is done properly. Mark has been in contact with Rose Restorations and Lend Lease over the weekend to make sure Rose was obtaining the right material. The work will begin today following a brief meeting verifying the procedure and Mark will observe the work to insure it is being implemented properly. We understand the urgency of starting the removal but doing it in a manner consistent with the Secretary's Standards as we have been doing all along with our restoration work.

Do we need to have a conference / discussion on the proposed cleaning methods required to correct the paint attack on the Old Post Office over the weekend?

Since we're in a transition between construction and operations teams, I'm not sure who is dealing with this issue, so thought it might be helpful to email all here.

Whatever you do it better be quick. The longer you wait the more it will penetrate into the stone and be harder to remove. The best removals are done within 24 hours of the event. There are graffiti remover products ProSoCo has one but if we wait too long it may leave a shadow behind.

Questions:

1. Per our FOIA request, we are still missing the 2014, 2015, and 2016 annual statements pertaining to section 5.3(b) of the ground lease signed by Mr. Trump and the GSA. Are you able to provide those?

*Link to the*

*Ashley Nash-Hahn provided CNN these docs that we can release per the FOIA Act Law and a statement from GSA on September 17, 2016 at 3:39pm and we are providing them again attached along with the email traffic.*

2. Have you at any time during the course of this lease exercised your right to conduct an audit of tenant's finances per section 5.4 of the ground lease?

---If so, what was the result of the audit? Please share any documentation regarding the audit(s). *This cannot be addressed by the GSA FOIA Division.*

---If you have not exercised your right to audit, how have you been able to consistently verify that tenant has always remained above the net worth threshold and the liquid assets threshold, as stipulated in Section 4(b) of Exhibit B-2, the Bad Acts Guaranty? *This cannot be addressed by the GSA FOIA Division. This needs to be addressed by the Program Office in NCR.*

3. Has GSA sent tenant a notice of deficiency of performance (notice of default) for any reason during the course of this lease? *This cannot be addressed by the GSA FOIA Division. This needs to be addressed by the Program Office in NCR.*

4. Is it a requirement that all GSA staff who worked on this lease agreement sign a non-disclosure agreement upon leaving the GSA? Is that standard practice for anyone who works on a lease procurement or is it specific to this lease agreement concerning Mr. Trump? *This cannot be addressed by the GSA FOIA Division. Hi Chris,

Please see the attached doc. The following is on background, attributable to a GSA spokesperson:

The certificates of financial status represented a ministerial requirement under the terms of the lease. When notified of the missing certificates, the Trump Organization promptly provided them to GSA, and GSA shared those with CNN. The missing certificates had no impact on the guaranty or the project itself.

Hi Ashley,

While we appreciate a willingness by Kevin to answer written questions, we are very much hoping to have a discussion with him that could take several different paths depending on information he shares with us. We also have documents that we would like to show him that we would not be comfortable sending electronically. And we would be very grateful if he would allow us to meet with him in person.

To further that goal, we will agree to keep the conversation on background. While our preference would be to have him on the record, what we need is technical information-- to put the documents we have in context of the lease agreement--and a candid conversation with the person who represented the GSA in this deal.

We wanted to reach out with the impending storm, Hurricane Matthew, approaching the DC area and expected to hit the area with Category 1 or Category 2 strength based on the current information. The forecast has kicked in our protocol at the Federal level to prepare for the storm and many of our buildings that are potentially impacted are located in the Federal Triangle.

We are hopeful that your staff in some capacity can be available for a walk of the site TOMORROW AT 2:30 with our subject matter experts to provide you with our lessons learned from previous storms. At that time, we can identify specific areas that may have had issues in the past. We are hopeful that this site can help you all make an informed decision about how you protect the building.

We wanted to reach out with the impending storm, Hurricane Matthew, approaching the DC area and expected to hit the area with Category 1 or Category 2 strength based on the current information. The forecast has kicked in our protocol at the Federal level to prepare for the storm and many of our buildings that are potentially impacted are located in the Federal Triangle.

We are hopeful that your staff in some capacity can be available for a walk of the site TOMORROW AT 2:30 with our subject matter experts to provide you with our lessons learned from previous storms. At that time, we can identify specific areas that may have had issues in the past. We are hopeful that this site can help you all make an informed decision about how you protect the building.

Please advise if this time does not work.

Our POCs (in addition to your primary Mike/Glenn) cc'd herein are as follows:

Anthony Mondy

and/or

Kevin Rattliff  
[202-396-3982](tel:202-396-3982)

As always, you can certainly reach out to me directly if you need something.

We look forward to hearing you this evening or early tomorrow morning.  
Thanks,  
Brett

Good afternoon.

Attached are the new delinquency assignments

Also, the list has been copied into the "Delinquency Contacts" google doc

<https://docs.google.com/spreadsheets/d/1sMcyVn2UccHUtG5WQwrSKJH6AAH-4AhUwretCubBvM/edit#gid=1043395664>

Excluded from the assignments were debt appeal forbearance flag = true and Treasury referrals that have been identified in FedDebt.

At this time, OUTL can not rely on the Payags Treasury status of "processed" to determine that a debt has been referred to Treasury.

Once that field can be relied upon as accurate, we will let you know.

Questions:

1. Per our FOIA request, we are still missing the 2014, 2015, and 2016 annual statements pertaining to section 5.3(b) of the ground lease signed by Mr. Trump and the GSA. Are you able to provide those?

*Link to the*

*Ashley Nash-Hahn provided CNN these docs that we can release per the FOIA Act Law and a statement from GSA on September 17, 2016 at 3:39pm and we are providing them again attached along with the email traffic.*

2. Have you at any time during the course of this lease exercised your right to conduct an audit of tenant's finances per section 5.4 of the ground lease?

---If so, what was the result of the audit? Please share any documentation regarding the audit(s). *This cannot be addressed by the GSA FOIA Division.*

---If you have not exercised your right to audit, how have you been able to consistently verify that tenant has always remained above the net worth threshold and the liquid assets threshold, as stipulated in Section 4(b) of Exhibit B-2, the Bad Acts Guaranty? *This cannot be addressed by the GSA FOIA Division. This needs to be addressed by the Program Office in NCR.*

3. Has GSA sent tenant a notice of deficiency of performance (notice of default) for any reason during the course of this lease? *This cannot be addressed by the GSA FOIA Division. This needs to be addressed by the Program Office in NCR.*

4. Is it a requirement that all GSA staff who worked on this lease agreement sign a non-disclosure agreement upon leaving the GSA? Is that standard practice for anyone who works on a lease procurement or is it specific to this lease agreement concerning Mr. Trump? *This cannot be addressed by the GSA FOIA Division. Hi Chris,

Please see the attached doc. The following is on background, attributable to a GSA spokesperson:

The certificates of financial status represented a ministerial requirement under the terms of the lease. When notified of the missing certificates, the Trump Organization promptly provided them to GSA, and GSA shared those with CNN. The missing certificates had no impact on the guaranty or the project itself.

Best,

Ashley

Hi Ashley,

While we appreciate a willingness by Kevin to answer written questions, we are very much hoping to have a discussion with him that could take several different paths depending on information he shares with us. We also have documents that we would like to show him that we would not be comfortable sending electronically. And we would be very grateful if he would allow us to meet with him in person.

To further that goal, we will agree to keep the conversation on background. While our preference would be to have him on the record, what we need is technical information-- to put the documents we have in context of the lease agreement--and a candid conversation with the person who represented the GSA in this deal.

Good Morning:

Ashley/Kevin, I've redacted and attached records forwarded to me on friday. Also attached is our original response letter. The redactions are under (b)(6), Mr. Trump's signature.

Ashley, I understand you are working with CNN.

We responded to FOIA's 2016-000950, 001016, 001018 and 001019. I understand that CNN intends to run their story on Monday morning. Chris call me late Friday afternoon.

Mr. Welch's contact information is:

Chris Welch  
CNN New York  
(b) (6)

Mr. Welch is very interested in knowing why Schedule I is completely redacted. Below is a list of questions he asked last week.

---

Good Afternoon Mr. Welch:

Please see my answers to your questions numbered below.

1.) There are two documents (on page 4 and page 5 of the PDF) that are each titled "Certificate of Financial Status." Can you please tell us which one(s) of our requests each of those documents pertain to?

We believe each would pertain to one of these three request numbers:

-001018 (annual certifications pursuant to 5.3b)

-000950 (6 month certifications pertaining to Sec 3d of the Bad Acts Guaranty)

-001016 (6 month certificates pertaining to Sec 3d of the Bad Acts Guaranty *specifically requesting documents from July 1-Aug 9, 2016, the date of our request submission*)

I am not sure if I understand this question. however, this office provided the only records available at this time in response to the requests identified above.

2.) One of our requests (001019) asked for Schedule I of the Ground Lease yet there is no mention of Schedule I anywhere in the documents we received or in the response letter.

Please see our reading room section 3. <http://www.gsa.gov/portal/content/305477>

3.) We are also wondering if the documents we were given in response to our CNN request and the documents that Aram Roston at BuzzFeed was given in response to his request (GSA-2016-001028) might have been compiled together accidentally. I notice in the FOIA online portal that he was provided the exact same PDF file that we were (same one I have attached here) to his unrelated request for documents pertaining to Equity Guaranty B-1. The request numbers on the document title match ours, not his, so definitely need some clarification on what we have each been given and if there was any mixup.

2016-000950 - Kristin Wilson - Exhibit B-2 Bad Acts Guaranty.

2016-001016 - Kristin Wilson - Exhibit B-2 Bad Acts Guaranty. Section 3d

2016-001017 - Kristin Wilson - Section 5.3 (No Responsive records. Property is not open.)

2016-001018 - Kristin Wilson - Section 5.3(b) for the years 2013, 2014 and 2015

2016-001019 - Kristin Wilson - SCHEDULE I (Reading Room)

2016-001028- Aram Roston - The guaranty, Exhibit B-1.

We provided the only records received in response to these requests. Yes, Aram received the exact same records, These records were provided by the Trump Organization,

Can you please confirm that it wasn't a filing error and that we at CNN have received the all relevant documents that exist pertaining to our FOIA requests?

Yes, the records were provided by the Trump Organization, at this time we have no other responsive records.

You have been assigned to the FOIA request GSA-2017-000053. Additional details for this request are as follows:

Assigned By: Travis S. Lewis

Request Tracking Number: GSA-2017-000053

Due Date: N/A

Requester: Kristin Wilson

Request Track: Simple

Short Description: N/A

Long Description: Pursuant to the Federal Freedom of Information Act, 5 U.S.C. § 552 (the "Act"), Cable News Network, Inc. ("CNN") requests access to and copies of all communications and emails sent and received by GSA employee Travis Lewis and/or travis.lewis@gsa.gov and/or cellular phone number (202) 219-3078 between the dates of October 12, 2016 and October 14, 2016, specifically including but not limited to e-mails, scheduled phone calls and memos. CNN agrees to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$500. Please notify me prior to your incurring any expenses in excess of that amount. If CNN's request is denied in whole or part, we ask that you justify all deletions by reference to the specific exemptions of the Act. CNN will also expect you to release all segregable portions of otherwise exempt material. CNN reserves the right to appeal your decision to withhold any information. If you have questions regarding this request, please contact me as soon as possible by email (Kristin.Wilson@turner.com) or phone (202-558-8548). Thank you for your prompt attention to this matter. Kristin Wilson Senior Producer CNN

Assigned Comments: Hi Toni, Newly incoming OPO request. This will require an email pull that you need to prepare for me to provide for Cynthia's approval. Assigned By: Travis S. Lewis

Request Tracking Number: GSA-2017-000055

Due Date: N/A

Requester: Kristin Wilson

Request Track: Simple

Short Description: N/A

Long Description: Pursuant to the Federal Freedom of Information Act, 5 U.S.C. § 552 (the "Act"), Cable News Network, Inc. ("CNN") requests access to and copies of all communications and emails sent and received by GSA employee Jeff Hysen and/or jeff.hysen@gsa.gov between the dates of October 12, 2016 and October 14, 2016, specifically including but not limited to e-mails, scheduled phone calls and memos. CNN agrees to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$500. Please notify me prior to your incurring any expenses in excess of that amount. If CNN's request is denied in whole or part, we ask that you justify all deletions by reference to the specific exemptions of the Act. CNN will also expect you to release all segregable portions of otherwise exempt material. CNN reserves the right to appeal your decision to withhold any information. If you have questions regarding this request, please contact me as soon as possible by email (Kristin.Wilson@turner.com) or phone (202-558-8548). Thank you for your prompt attention to this matter. Kristin Wilson Senior Producer CNN

Assigned Comments: Hi Toni, Newly incoming OPO request. This will require an email pull that you need to prepare for me to provide for Cynthia's approval. Quite a few of these inter-related requests are coming in today. Please engage Duane Fulton early next week to help you with these email pull preparations. Thank you, Travis.

Good Morning:

Ashley/Kevin, I've redacted and attached records forwarded to me on friday. Also attached is our original response letter. The redactions are under (b)(6), Mr. Trump's signature.

Ashley, I understand you are working with CNN.

We responded to FOIA's 2016-000950, 001016, 001018 and 001019. I understand that CNN intends to run their story on Monday morning. Chris call me late Friday afternoon.

Mr. Welch's contact information is:

Chris Welch  
CNN New York  
(b) (6)

Mr. Welch is very interested in knowing why Schedule I is completely redacted. Below is a list of questions he asked last week.

---

Good Afternoon Mr. Welch:

Please see my answers to your questions numbered below.

1.) There are two documents (on page 4 and page 5 of the PDF) that are each titled "Certificate of Financial Status." Can you please tell us which one(s) of our requests each of those documents pertain to?

We believe each would pertain to one of these three request numbers:

-001018 (annual certifications pursuant to 5.3b)

-000950 (6 month certifications pertaining to Sec 3d of the Bad Acts Guaranty)

-001016 (6 month certificates pertaining to Sec 3d of the Bad Acts Guaranty *specifically requesting documents from July 1-Aug 9, 2016, the date of our request submission*)

I am not sure if I understand this question. however, this office provided the only records available at this time in response to the requests identified above.

2.) One of our requests (001019) asked for Schedule I of the Ground Lease yet there is no mention of Schedule I anywhere in the documents we received or in the response letter.

Please see our reading room section 3. <http://www.gsa.gov/portal/content/305477>

3.) We are also wondering if the documents we were given in response to our CNN request and the documents that Aram Roston at BuzzFeed was given in response to his request (GSA-2016-001028) might have been compiled together accidentally. I notice in the FOIA online portal that he was provided the exact same PDF file that we were (same one I have attached here) to his unrelated request for documents pertaining to Equity Guaranty B-1. The request numbers on the document title match ours, not his, so definitely need some clarification on what we have each been given and if there was any mixup.

2016-000950 - Kristin Wilson - Exhibit B-2 Bad Acts Guaranty.

2016-001016 - Kristin Wilson - Exhibit B-2 Bad Acts Guaranty. Section 3d

2016-001017 - Kristin Wilson - Section 5.3 (No Responsive records. Property is not open.)

2016-001018 - Kristin Wilson - Section 5.3(b) for the years 2013, 2014 and 2015

2016-001019 - Kristin Wilson - SCHEDULE I (Reading Room)

2016-001028- Aram Roston - The guaranty, Exhibit B-1.

We provided the only records received in response to these requests. Yes, Aram received the exact same records, These records were provided by the Trump Organization,

Can you please confirm that it wasn't a filing error and that we at CNN have received the all relevant documents that exist pertaining to our FOIA requests?

Yes, the records were provided by the Trump Organization, at this time we have no other responsive records.

Hi Cynthia, since you are working at home today, I want to provide a couple documents ahead of time for our 4pm meeting on FOIA and Records.

Most of the topics I plan to discuss are just discussion points. I do want to provide the weekly open FOIA update and the email results for the .gsa@gmail and gsa@gmail pulls so you can see these. I have eliminated the duplicates from this pull, and the good news is there are not many hits, so folks are not improperly using these emails like may have previously been thought.

Looking forward to our meeting at 4pm.

Thanks,

Thank you Teresa for including me. Please see my response to these questions from a GSA FOIA perspective (In Blue Font).

Questions:

1. Per our FOIA request, we are still missing the 2014, 2015, and 2016 annual statements pertaining to section 5.3(b) of the ground lease signed by Mr. Trump and the GSA. Are you able to provide those?

Link to the

lease: ([http://www.gsa.gov/portal/mediaId/233119/fileName/Part_One_of_Segment_001_of_OPO_Ground_Lease_\(2013\)_RA.action](http://www.gsa.gov/portal/mediaId/233119/fileName/Part_One_of_Segment_001_of_OPO_Ground_Lease_(2013)_RA.action))

Ashley Nash-Hahn provided CNN these docs that we can release per the FOIA Act Law and a statement from GSA on September 17, 2016 at 3:39pm and we are providing them again attached along with the email traffic.

2. Have you at any time during the course of this lease exercised your right to conduct an audit of tenant's finances per section 5.4 of the ground lease?

---If so, what was the result of the audit? Please share any documentation regarding the audit(s). *This cannot be addressed by the GSA FOIA Division.*

---If you have not exercised your right to audit, how have you been able to consistently verify that tenant has always remained above the net worth threshold and the liquid assets threshold, as stipulated in Section 4(b) of Exhibit B-2, the Bad Acts Guaranty? *This cannot be addressed by the GSA FOIA Division. This needs to be addressed by the Program Office in NCR.*

3. Has GSA sent tenant a notice of deficiency of performance (notice of default) for any reason during the course of this lease? *This cannot be addressed by the GSA FOIA Division. This needs to be addressed by the Program Office in NCR.*

4. Is it a requirement that all GSA staff who worked on this lease agreement sign a non-disclosure agreement upon leaving the GSA? Is that standard practice for anyone who works on a lease procurement or is it specific to this lease agreement concerning Mr. Trump? *This cannot be addressed by the GSA FOIA Division. This needs to be addressed by the Program Office in NCR.*

Hi Chris,

Please see the attached doc. The following is on background, attributable to a GSA spokesperson:

The certificates of financial status represented a ministerial requirement under the terms of the lease. When notified of the missing certificates, the Trump Organization promptly provided them to GSA, and GSA shared those with CNN. The missing certificates had no impact on the guaranty or the project itself.

Hi Ashley,

While we appreciate a willingness by Kevin to answer written questions, we are very much hoping to have a discussion with him that could take several different paths depending on information he shares with us. We also have documents that we would like to show him that we would not be comfortable sending electronically. And we would be very grateful if he would allow us to meet with him in person.

To further that goal, we will agree to keep the conversation on background. While our preference would be to have him on the record, what we need is technical information-- to put the documents we have in context of the lease agreement--and a candid conversation with the person who represented the GSA in this deal.

Yes, we need GSA to come out tomorrow at a time convenient to you. We intend to show you the remaining rooms on the second floor and the NPS space on the 9th, 10th and 12th Floors if JH has had time to review the shop drawings attached to the link below. If not we will not go to the NPS space. Patrick, please confirm the room numbers on the 2nd floor we are looking at tomorrow.

This link has the revised NFP sprinkler drawings just received from Lend Lease for the NPS space. These incorporate changes to the 9th floor corridor per JH comments (such as adding sprinkler heads in the corridor on 9). The upper floors of the NPS space had comments from JH that were addressed in the attached e-mail. We have asked NFP to add these notes to the upper floor shop drawings and expect those later today or early tomorrow. I am told there are not changes to the drawings just the notes.

I have also attached for your reference the original submission of the NPS Sprinklers to JH August 30, 2016. We will forward you JH approved drawings when we receive them after they have had a chance to review these new drawings. It is our understanding that these current drawings comply with all the comments from JH during the installation and the work was installed accordingly.

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from ECS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Best,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the T C Oso I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have E C Sand J H provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Attached are two letters from Jensen Hughes for Life Safety and Fire Protection based on the review of the second floor today. Also attached is a letter from E C Sfor the second floor guest rooms. We will not be reviewing the ninth floor NPS space tomorrow until everyone has a chance to review the shop drawings. We intend to review the NPS space next week.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Laura,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the T C Oso I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

Best,

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have E C Sand J H provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.

Laura – It is going to be limited to the remaining rooms on the second floor, so should be a quick walk through tomorrow. The paperwork should be fairly straightforward for these areas, but (b) (6) ended up doing the inspection today and needs to get back to his office to send it so it will be later today if that is alright with you.

Best,

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from ECS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

The need for lower tier sprinklers is not mandated in the codes and standards (NFPA 88A or NFPA 13). The industry recognizes the need to standardize fire protection requirements for parking stackers. A proposal has been submitted to the NFPA research foundation to study sprinklers, fireproofing of the stacker supports, smoke and other provisions.

Subject: Fire Protection Requirements below Parking Stackers

Question: The parking stacker manufacturer has advised that additional fire protection measures are typically required to provide coverage for the lower tier of parking stackers in enclosed spaces. Fire Protection drawings do not indicate any additional requirements for coverage in the garage space that these stackers are to be installed. Please advise if additional coverage is required for the lower tier of the parking stackers in the garage space of the Annex building. If so, please provide requirements for this additional coverage.

Attached are two letters from Jensen Hughes for Life Safety and Fire Protection based on the review of the second floor today. Also attached is a letter from ECS for the second floor guest rooms. We will not be reviewing the ninth floor NPS space tomorrow until everyone has a chance to review the shop drawings. We intend to review the NPS space next week.

Hi (b) (6) Do you need us to come out tomorrow am? If so, can you send us documentation regarding what has been completed and what we need to reinspect?

Thanks. Laura

Laura,

My apologies for sending this so late in the day. Our team was trying to get as much confirmed as possible and this certainly came later than it should have.

The letters from ECS and Jensen Hughes are attached. I also attempted to mark-up the TCO to clarify what we would like to show you tomorrow and proposing to remove from the exceptions of the TCO.

At a high level, we are looking to remove:

- the 2nd floor (except 239-245)
- 9th floor guest rooms
- Franklin Study bathrooms and associated corridor
- Grant Private Dining Room
- Outdoor landscaping
- The mag locks that are installed and tested
- The annex doors that needed to be modified

We are not planning to review the NPS space with you yet as we want to make sure that we can clearly communicate that space to you beforehand.

Going forward, we will plan to have these letters to you in the morning the day before any of these walk throughs if that works for you. Again, my apologies for the late communication of this.

Best,

Laura,

I believe that you have already spoken to (b) (6) but wanted to close the loop on this email. The letters are going to go out today. I am sorry that we did not get them to you earlier; however, they are really aimed towards the carve-outs from the TC Oso I do not think the content should be too heavy.

We will plan to be there for the walk through tomorrow morning. Are you planning to arrive at 9 a.m.? I came down for this as well, so will plan to participate.

Best,

(b)

Just confirming that we are on for tomorrow am. Please send us the letters from JH today so that we can review their documentation prior to our walk through. Thanks. Laura

We would like to schedule the next three site visits to eliminate carve outs from the Sep 12 TCO and the Jensen Hughes Letters punch lists. We would like to schedule them on Wednesday, September 28, Wednesday October 5 and Wednesday October 12. Our plan is to have E C Sand J H provide updated letters the Tuesday before and give you the agenda for the next day. For example, the September 28 walk will have letters to you from E C Sand J H Tuesday September 27 and will include the Annex stairs and other areas in the Annex, mag locks (being signed off by J H separately), the ground floor Grant Meeting Room and some rooms on the 2nd floor and 9th floor.

In order to have the ability to sell rooms and use the Annex without guards on the doors, we could like GSA to issue a revised T C O after these walkthroughs if that makes sense to you, subject to your approval during the walk. Let us know what time is good for you and if these dates work. Thanks.
