[La Raisa II LM6000 Pricing for Submittal rev.xls](#)

Hi Pedro,

In response to your email a little earlier today, I am re-sending you the email which Joaquin sent you back on April 23rd with the LaRaisa II updated TSD and pricing attached.

This TSD and firm price includes the commissioning of the LM6000PD unit.

This TSD and firm price does not include the construction of the water pipeline. However, we can construct this pipeline by utilizing a qualified local pipeline contractor. Pricing will be Cost Plus based on the labor and material utilized by the local contractor to construct the pipeline to EDC's specifications / requirements. It was my understanding that you would be provided with a transmittal letter when the updated TSD was sent to you explaining the terms relating to the pipeline.

I will be happy to participate on the conference call Wednesday morning to go over the TSD. In preparation for this call, would you please give me a list of the participants and any comments that EDC / Asincro has made up to now after their review of the TSD? I would like to be prepared ahead of time to cover these.

Thanks a lot,

David Whisenhunt
