Houston, Texas, 77090

**Subject: Distillate fuel forwarding skids replacement for 4XGE Fram5P.
AQESA RFQ# 09-09-03GE**

Dear Dallas,

AQESA, (Al-Quraishi Electrical Services of Saudi Arabia), is a Saudi company that is highly experienced in the installation, repair, and refurbishment of power generation turbine equipment, and we are proud to work to support the power industry in the Kingdom.

AQESA is pleased to submit this RFQ to pro-Energy services, seeking a quote for the design, equipment supply, supervision, engineering and technical support for the installation and commissioning of the new distillate fuel forwarding systems for 4XGE GT-MS-5001P gas turbines.

SCOPE OF WORK:

- The supply of Qty 4 distillate fuel forwarding skids, that include:
 - Distillate fuel heater for included in every skid.
 - One 480V AC fuel forwarding pump motor.
 - One AC/DC fuel forwarding pump with DC “Blackstart” startup capability.
 - Strainers as required.
 - Valves for full isolation of each pump and the whole skid as required.
 - Pressure gauge for the main discharge line.
 - Pressure switch for the main discharge line.
 - Load power breakers calculation for the pumps.
 - Power breakers calculations and specs for the skid instrumentations.
- Design for the civil works for the installation of the cooling water skid.
- Supply of the variable pressure regulator valves.
- Provide a mechanical engineer for the complete installation.
- AQESA will execute the civil, mechanical and electrical works on site.
- AQESA will supply the breakers and electrical components external to the skid.

TERMS AND CONDITIONS:

- Proposal due on or before October 15th, 2009

WARRANTY:

- One year on all materials supplied and workmanship.

Should you have any questions, technical or commercial, please contact Mr. Antoine Beyrouthy, General Manager, AQESA Power Generation Services.

Very Truly Yours

Antoine Beyrouthy L.L.L.
