

# A11: Additional Information

Must be typewritten.

Page number 1 of 2

BIS Document No. 1

## 1 Location and Job Information Required for all applications.

House No(s) 401

Street Name 9th Ave

Borough Manhattan

Block 729

Lot 60

BIN 1800650

CB No. 104

## 2 Revisions to Plans/Drawings Required whenever updating plans. All revisions for each page must be clearly described in section 3.

Submission is part of a Post Approval Amendment (PAA)?

☐ Yes PW1 required

☒ No

Indicate all actions for this submission:

Action	Original/New/ Omit Page ID	Superseding Page ID	Action	Original/New/ Omit Page ID	Superseding Page ID	Action	Original/New/ Omit Page ID	Superseding Page ID	Action	Original/New/ Omit Page ID	Superseding Page ID

For "Action" use "N" for new page, "S" for superseding page, "O" for omitting page.

Is this section continued on additional A11 forms? ☐ Yes ☒ No

## 3 Additional Information Required for all applications.

Ai-1 objection response to energy code objections dated 4-8-15

•Incomplete model review of mechanical systems due to Mechanical schedule being incomplete. Please provide all information to complete review.

JB&B [4-28-15] update schedules provided.

•EN package references ASHRAE 90.1 (EN-002),

Energy model references NYCECC (Energy Report Summary, pg 1). Must be consistent.

JB&B [4-28-15] update EN-002 provided.

•EN-000: Incomplete TR-8 forms – uploaded to esubmit

•P-500: Steam fired HW heater not in model

Vidaris [4-23-15] Steam fired HW heater is now included. Please see PV-A output report.

•EN-200: Mandatory requirement not met for

Vestibule – The project complies with section 502.4.6 exception 4 and 5 of the NYCECC. This has been updated on drawing EN-200 and an additional foot note has been included.

•M-dwgs: Mandatory requirement for ERV not met

JB&B [4-28-15] project complies with Section 503.2.6, the air volume of the outside air systems is less than 70% of the total air supply volume of the system they serve.

•Provide LV-I report

Vidaris [4-23-15] It is now included in the DOE2\_Outputs.pdf

Falsification of any statement is a misdemeanor and is punishable by a fine or imprisonment, or both. It is unlawful to give to a city employee, or for a city employee to accept, any benefit, monetary or otherwise, either as a gratuity for properly performing the job or in exchange for special consideration. Violation is punishable by imprisonment or fine or both. I understand that if I am found after hearing to have knowingly or negligently made a false statement or to have knowingly or negligently falsified or allowed to be falsified any certificate, form, signed statement, application, report or certification of the correction of a violation required under the provisions of this code or of a rule of any agency, I may be barred from filing further applications or documents with the Department.

## 3 Additional Information Required for all applications.

•PS-E Report: Proposed and Baseline DHW heating should be modeled the same. If DHW is being satisfied by Cogen load, then fuel source is steam, not electric.

Vidaris [4-23-15] Proposed and Baseline DHW heating are modeled the same with Electric and Steam-fired DHW heaters. Cogen is not serving DHW heaters.

•PS-C: Clarify why no load on OPEN-REC-CHLR in proposed design. If load is satisfied by absorption chiller, fuel source is steam.

Vidaris [4-23-15] OPEN-REC-CHLR is now operating when there is no heat recovery from cogen for absorption chiller during the shoulder months.

•Absorption chiller not modeled in baseline. Table 506.5.1(3)(e) "where chiller fuel source is mixed, the system in the standard reference design shall have chillers with the same fuel types and with capacities having the same proportional capacity as the proposed design's chillers for each fuel type."

Vidaris [4-23-15] The baseline design now has both electric and absorption chillers with the same fuel types, proportionally sized as the proposed design chillers. Please see the Energy Report.
