

Free Installation Tool Kit with purchase of MicroScanner Pro™ VDV Kit

The complete voice data video verification tool kit

The **MicroScanner Pro VDV Kit** is the essential, all-in-one voice data video verification tool kit. It verifies twisted pair (UTP/STP/SSTP, Cat 5e Cat 6), coax cables (RG6, RG11, etc. for CATV/CCTV), Cat 3 telephone cabling, and bare wire such as speaker wire and security networks. The MicroScanner Pro measures length, distance to fault via TDR and quickly identifies active network ports and hubs. The MicroScanner Pro VDV Kit also includes a IntelliTone probe for locating cables hidden in walls, ceilings and wiring closets, a wiremap

Installation Tool Kit

adapter, F-connector coax adapter, bare wire adapter, and office ID kit. The Installation Tool Kit is a great companion to the MicroScanner Pro VDV Kit. It combines all the tools you need to install data cabling, including a UTP/STP cable jacket stripper, a punchdown tool with switchable tip for 66 and 110 blocks, and an RJ45 connector crimping tool.

MicroScanner Pro VDV Kit
